

1
00:00:00,010 --> 00:00:10,990
Music

2
00:00:14,070 --> 00:00:19,110
Before I get around to the poll, I want to thank each one of you.

3
00:00:19,130 --> 00:00:26,140
And say on behalf of NASA I want to thank each of you and your colleges for all the support you have given over

4
00:00:26,160 --> 00:00:32,150
And with that, I'm going to proceed with the go, no go poll for the STS-135 launch.

5
00:00:32,170 --> 00:00:34,150
PDL... go.

6
00:00:34,170 --> 00:00:35,550
MILA... go.

7
00:00:35,570 --> 00:00:37,580
Dryden... go.

8
00:00:37,600 --> 00:00:39,620
Wallops... go.

9
00:00:39,640 --> 00:00:41,650
Marshall... go.

10
00:00:41,670 --> 00:00:43,670
Goddard Ops... go.

11
00:00:43,690 --> 00:00:54,720
2... 1... 0 and lift off. The final lift off of Atlantis on the shoulders of the space shuttle, America will continue the

12
00:00:54,740 --> 00:00:58,750
Roger-roll Atlantis.

13
00:00:58,770 --> 00:01:03,810

I was extremely excited about it, of course, I tried to keep it bottled up inside

14

00:01:03,830 --> 00:01:09,850

but at that point in time I was just very, very proud

15

00:01:09,870 --> 00:01:12,860

and very happy that we were on our way.

16

00:01:12,880 --> 00:01:18,920

I'm a part of something that very few people get a chance to be a part of.

17

00:01:18,940 --> 00:01:22,970

Afterwards you start thinking about and you say, I'll never do this again.

18

00:01:22,990 --> 00:01:27,020

This is done. But I'm looking forward to a new challenge.

19

00:01:27,040 --> 00:01:32,040

It's going to be nice looking back and say hey I was apart of that

20

00:01:32,060 --> 00:01:37,070

but having grown up with the shuttle it's sad to see it go.

21

00:01:37,090 --> 00:01:42,120

Just looking forward to the future, focusing on the space station

22

00:01:42,140 --> 00:01:46,160

and visiting vehicles and we still have a lot of work to do.

23

00:01:46,180 --> 00:01:52,200

It's very enjoyable, challenging and very rewarding.

24

00:01:52,220 --> 00:01:55,200

Work with a very good group of people.

25

00:01:55,220 --> 00:02:00,220

I guess about two or three years ago when it was announced this was going to be the last shuttle,

26

00:02:00,240 --> 00:02:04,240

no one really believed it, they figured that something would come up

27

00:02:04,260 --> 00:02:10,250

and we would have another shuttle and another shuttle but I guess all good things have to end at one point.
