

1992

8 km

1  
00:00:00,040 --> 00:00:04,220

This data from four Landsat satellites, shows the traditional

2  
00:00:04,240 --> 00:00:08,430

rectangular patchwork of agricultural fields in the Texas panhandle

3  
00:00:08,450 --> 00:00:14,080

being overtaken by the signature polka-dotted pattern of center-pivot irrigation.

4  
00:00:14,100 --> 00:00:16,800

The bright red colors show

5  
00:00:16,820 --> 00:00:20,970

healthy vegetation due to irrigation in this false-color composite.

6  
00:00:20,990 --> 00:00:28,830

The data shows reflected light in the near-infrared, red, and green regions of the electromagnetic spectrum.

7  
00:00:28,850 --> 00:00:35,450

Green and white colors are bare soil, fallow fields, and sparse grasslands.
