

1
00:00:00,240 --> 00:00:04,310

Hi I'm Ernie Wright. I do scientific visualization for Lunar Reconnaissance

2
00:00:04,330 --> 00:00:08,440

Orbiter. For the first time since 1977 we're going to have a full moon

3
00:00:08,460 --> 00:00:12,620

on Christmas Day. If you happen to be outside late at night on Christmas Eve
