

PACE

The word "PACE" is rendered in a white, serif font against a black background filled with small white specks, resembling a starry sky. The letter 'A' is replaced by a large, white, stylized triangle. Two white starburst shapes, each with eight points, are positioned at the top and bottom vertices of the triangle. The overall composition is centered horizontally.

1  
00:00:00,000 --> 00:00:01,271  
the ocean

2  
00:00:01,931 --> 00:00:05,380  
ninety-nine percent of Earth's living  
space

3  
00:00:05,380 --> 00:00:14,381  
the atmosphere: nitrogen and oxygen  
carbon dioxide and more at the top of

4  
00:00:14,381 --> 00:00:15,311  
the ocean

5  
00:00:15,311 --> 00:00:22,151  
trillions of microscopic algae -  
phytoplankton, different shapes, different

6  
00:00:22,151 --> 00:00:30,640  
sizes, different roles - in a web of life.  
Like land plants, phytoplankton need

7  
00:00:30,640 --> 00:00:34,061  
carbon dioxide to build cellular  
material.

8  
00:00:34,061 --> 00:00:40,631  
They also give off oxygen - so much oxygen  
that one of every two breaths you take

9  
00:00:40,631 --> 00:00:46,991  
uses oxygen produced by phytoplankton  
but to understand how the ocean and

10  
00:00:46,991 --> 00:00:51,401  
atmosphere interact and what that means  
in terms of global climate change

11  
00:00:52,091 --> 00:00:55,091

you need to look down from space
