

The image shows the Mars Magnetospheric Sounding Satellite (MMS) in space. The satellite is a long, thin structure with several large, rectangular solar panels that are a vibrant blue color. It is positioned in the upper left quadrant of the frame. In the lower right, the Earth is visible as a blue and white sphere, with a thin layer of atmosphere and some red and white auroral-like structures around its poles. The background is a deep black space filled with numerous small, distant stars. Three white horizontal bars with black text are overlaid on the right side of the image.

**NASA'S MMS WINS**

**ANOTHER GUINNESS**
