

A crescent moon is visible in a dark, black sky. A bright red horizontal banner is superimposed over the center of the moon. The banner contains the text "DON'T MISS OUT!" in white, bold, uppercase letters.

DON'T MISS OUT!

1
00:00:00,000 --> 00:00:01,000
[Music throughout]

2
00:00:01,000 --> 00:00:04,000
Don't miss out.

3
00:00:04,000 --> 00:00:08,000
See the biggest supermoon in a generation on Nov. 14, 2016.

4
00:00:08,000 --> 00:00:12,000
It's the closest the moon has been to Earth since 1948.

5
00:00:14,266 --> 00:00:18,000
Appearing bigger and brighter, the moon won't look this super again until 2034.
