

WORLDVIEW CELEBRATES 18 YEARS OF DATA

2000 - 2018

1
00:00:05,500 --> 00:00:09,480

This is the entire world

2
00:00:09,500 --> 00:00:11,280

NASA collected 18 years of images

3
00:00:11,300 --> 00:00:14,480

from a little spaceborne instrument called MODIS

4
00:00:15,100 --> 00:00:17,980

Now it's available for the first time in its entirety

5
00:00:18,500 --> 00:00:21,680

Here's what MODIS saw from space

6
00:00:24,800 --> 00:00:32,580

Thomas Fire in California, December 2017

7
00:00:37,500 --> 00:00:45,780

Smoke and haze in India, December 2017

8
00:00:52,100 --> 00:00:57,080

Watch here

9
00:00:57,100 --> 00:01:01,080

Filling in the Lower Sesan Dam reservoir in Cambodia, February 26, 2014 through February 26, 2018

10
00:01:05,300 --> 00:01:08,580

Watch here

11
00:01:11,500 --> 00:01:15,880

Petermann Glacier calving iceberg, July 14-17, 2012

12
00:01:22,000 --> 00:01:29,180

Watch here

13
00:01:29,200 --> 00:01:33,080

Eyjafjallajokull Volcano Eruption in Iceland, March - June, 2010

14

00:01:37,900 --> 00:01:43,280

Hurricane Katrina in the Gulf of Mexico, late August - September 2005

15

00:01:43,300 --> 00:01:48,580

Major flooding

16

00:01:55,300 --> 00:01:59,780

These MODIS images are free and open to the public

17

00:01:59,800 --> 00:02:04,280

You can browse filters like "Fire", "Severe Storms", "Night Lights" and more
