

3 miles

2018

1

00:00:00,060 --> 00:00:03,160

In these images, the vegetation, the healthy vegetation,

2

00:00:03,180 --> 00:00:07,570

is dark green. That's the sign of tall, healthy forest.

3

00:00:07,590 --> 00:00:09,820

And what you can see, right after the fire,

4

00:00:09,840 --> 00:00:11,670

is the very obvious fire scar.

5

00:00:11,690 --> 00:00:13,970

It's the dark reddish-brown color.

6

00:00:13,990 --> 00:00:15,880

And then as you chart through time,

7

00:00:15,900 --> 00:00:16,530

what you're going to see

8

00:00:16,550 --> 00:00:20,620

is the recovery on the old fire scar

9

00:00:20,640 --> 00:00:23,430

as first grasses, and then shrubs,

10

00:00:23,450 --> 00:00:26,980

and then finally some saplings and short trees come up.

11

00:00:27,000 --> 00:00:30,370

But what's also interesting is that years after the fire,
