

1  
00:00:00,000 --> 00:00:03,804  
[exciting music] NASA's first  
asteroid sample return mission

2  
00:00:03,804 --> 00:00:07,174  
is now approaching asteroid  
Bennu

3  
00:00:07,174 --> 00:00:10,944  
OSIRIS- REx launched in 2016

4  
00:00:10,944 --> 00:00:14,781  
and just took its first picture  
of its destination

5  
00:00:14,781 --> 00:00:18,185  
As we approach, we will learn  
exactly what Bennu looks like

6  
00:00:18,185 --> 00:00:21,688  
and if there are moons or debris  
nearby

7  
00:00:21,688 --> 00:00:25,125  
OSIRIS- REx will arrive at  
asteroid Bennu on December 3,  
2018
