

1

00:00:08,090 --> 00:00:12,130

From 1 million miles away, the Earth Polychromatic Imaging Camera (EPIC)

2

00:00:12,130 --> 00:00:16,200

captures between 13 and 22 images of the sunlit side of Earth everyday.

3

00:00:24,280 --> 00:00:28,320

Using newly developed processes, scientists can see more than meets the eye in these images:

4

00:00:36,440 --> 00:00:40,500

Smoke from wildfires

5

00:00:40,500 --> 00:00:44,610

Vegetation health on land

6

00:00:44,610 --> 00:00:48,730

Different types of clouds
