

1
00:00:01,140 --> 00:00:06,140

The James Webb Space Telescope is now an assembled observatory.

2
00:00:11,140 --> 00:00:16,140

NASA and Northrop Grumman engineers successfully connected the observatory's two halves.

3
00:00:19,160 --> 00:00:24,160

Webb is the most powerful and complex space telescope NASA has ever built.

4
00:00:24,160 --> 00:00:29,160

Webb will explore the cosmos using infrared light from planets and moons within our solar system to the earliest
