

**FINAL SAMPLE SITE SELECTION
DECEMBER 12th**

1
00:00:06,389 --> 00:00:03,110
on september 8 2016 in cape canaveral

2
00:00:08,470 --> 00:00:06,399
florida osiris-rex began its journey

3
00:00:10,870 --> 00:00:08,480
nasa's most ambitious sample collection

4
00:00:13,589 --> 00:00:10,880
attempt since the apollo program

5
00:00:15,829 --> 00:00:13,599
after two years including a gravity

6
00:00:17,910 --> 00:00:15,839
assist from earth this spacecraft

7
00:00:20,550 --> 00:00:17,920
arrived at his destination

8
00:00:23,189 --> 00:00:20,560
asteroid bennu

9
00:00:25,269 --> 00:00:23,199
as osiris-rex drew near bennu grew in

10
00:00:28,070 --> 00:00:25,279
detail from a few tiny pixels to a

11
00:00:28,830 --> 00:00:28,080
surprisingly rugged world littered with

12
00:00:31,509 --> 00:00:28,840
giant

13
00:00:33,670 --> 00:00:31,519

boulders the spacecraft has used its

14

00:00:36,389 --> 00:00:33,680

instrumentation to map the asteroid from

15

00:00:38,229 --> 00:00:36,399

all sides mapping it in unprecedented

16

00:00:40,709 --> 00:00:38,239

detail the mission team has been

17

00:00:46,549 --> 00:00:40,719

analyzing the data scouring bennu's

18

00:00:51,350 --> 00:00:49,110

now with just months to go before sample

19

00:00:55,570 --> 00:00:51,360

collection the team has narrowed its

20

00:01:05,020 --> 00:00:55,580

target down to four potential sites
