

Goddard
SPACE FLIGHT CENTER

1

00:00:00,000 --> 00:00:04,000

Ray Rubilotta: Associate Center Director: We are NASA's preeminent science center.

2

00:00:05,120 --> 00:00:08,000

We execute NASA's most complex science

3

00:00:08,000 --> 00:00:12,000

missions, and we improve lives on

4

00:00:12,000 --> 00:00:16,000

Earth daily.

5

00:00:16,000 --> 00:00:20,000

Named for the father of modern rocketry, Dr. Robert H. Goddard,

6

00:00:20,000 --> 00:00:24,000

we are NASA's first space flight center. We began

7

00:00:24,000 --> 00:00:28,000

began an era of space flight and innovation that is benefitting humanity

8

00:00:28,000 --> 00:00:30,920

and enhancing life on Earth.

9

00:00:33,520 --> 00:00:36,000

We are home to the nation's

10

00:00:36,000 --> 00:00:40,000

largest organization of scientists, engineers and

11

00:00:40,000 --> 00:00:44,000

technologists who build spacecraft, instruments and new

12

00:00:44,000 --> 00:00:48,000

technology to study Earth, the sun, our

13

00:00:48,000 --> 00:00:50,220

solar system and the universe.

14

00:00:52,540 --> 00:00:56,000

Our dedicated civil servants and contractors are modernizing

15

00:00:56,000 --> 00:01:00,000

Goddard's Institutions and infrastructure for the future.

16

00:01:01,920 --> 00:01:04,000

We are transforming this facility

17

00:01:04,000 --> 00:01:08,000

into a premier science and research facility.

18

00:01:16,000 --> 00:01:12,000

(music)

19

00:01:16,000 --> 00:01:20,000

I invite you to read our Master Plan "Envision Goddard, Modernizing

20

00:01:20,000 --> 00:01:24,000

for the Future." Learn how Goddard will meet the challenges

21

00:01:24,000 --> 00:01:28,000

of the future; exploring our planet and the far reaches of our

22

00:01:28,000 --> 00:01:32,000

universe, while inspiring the next generation of explorers

23

00:01:32,000 --> 00:01:33,860

and protecting our environment.

24

00:01:36,000 --> 00:01:40,000

We are Goddard Space Flight Center.
