

1
00:00:07,269 --> 00:00:03,990
my name is sophia von hippel and i'm an

2
00:00:09,589 --> 00:00:07,279
intern with gsfc and i'm working on a

3
00:00:12,310 --> 00:00:09,599
deep learning project looking at climate

4
00:00:14,470 --> 00:00:12,320
data hi i'm mairoz dejani and i'm

5
00:00:15,430 --> 00:00:14,480
currently a software engineer intern at

6
00:00:17,670 --> 00:00:15,440
gis

7
00:00:19,990 --> 00:00:17,680
i'm working on the project which is

8
00:00:22,950 --> 00:00:20,000
advancing the snow ice cloud mask over

9
00:00:25,830 --> 00:00:22,960
greenland hi my name's alina i'm working

10
00:00:28,150 --> 00:00:25,840
on rsv monitoring and data management at

11
00:00:29,349 --> 00:00:28,160
gizz with goddard space flight center in

12
00:00:33,510 --> 00:00:29,359
maryland

13
00:00:37,310 --> 00:00:33,520

okay my name is iodes and i'm a graduate

14

00:00:43,030 --> 00:00:37,320

student intern with nasa gis

15

00:00:44,389 --> 00:00:43,040

[Music]

16

00:00:47,990 --> 00:00:44,399

i've been

17

00:00:50,630 --> 00:00:48,000

working on creating a training data set

18

00:00:53,270 --> 00:00:50,640

and also the training code

19

00:00:55,270 --> 00:00:53,280

for a deep learning model yeah so

20

00:00:57,189 --> 00:00:55,280

specifically i've been developing a lot

21

00:00:59,189 --> 00:00:57,199

in python i've been creating a lot of

22

00:01:01,270 --> 00:00:59,199

data analysis scripts and i've been

23

00:01:03,430 --> 00:01:01,280

using different tools such as tableau to

24

00:01:07,030 --> 00:01:03,440

visualize certain data rights currently

25

00:01:09,270 --> 00:01:07,040

i'm working on an app that displays

26

00:01:10,390 --> 00:01:09,280

all the data collected by the rrsp

27

00:01:13,429 --> 00:01:10,400

instrument

28

00:01:16,310 --> 00:01:13,439

i'm working with a team

29

00:01:18,230 --> 00:01:16,320

that looks at how to characterize remote

30

00:01:20,550 --> 00:01:18,240

sensing and land surface temperatures

31

00:01:22,390 --> 00:01:20,560

within uh brooklyn new york

32

00:01:24,469 --> 00:01:22,400

i think it for me you know over at

33

00:01:26,390 --> 00:01:24,479

wallops has been a pretty good session

34

00:01:27,670 --> 00:01:26,400

um so a lot of stuff that i did like

35

00:01:29,270 --> 00:01:27,680

where i was at green belt was like

36

00:01:31,350 --> 00:01:29,280

social media stuff but at wallops they

37

00:01:32,710 --> 00:01:31,360

do a lot of internal video projects i

38

00:01:34,469 --> 00:01:32,720

was really excited to get to help out

39

00:01:35,990 --> 00:01:34,479

with live shots for the sentinel 6

40

00:01:37,670 --> 00:01:36,000

launch which

41

00:01:45,710 --> 00:01:37,680

was not something i expected to be able

42

00:01:52,789 --> 00:01:48,710

[Music]

43

00:02:04,709 --> 00:02:00,310

still

44

00:02:08,869 --> 00:02:06,870

logging into microsoft teams the snap

45

00:02:09,830 --> 00:02:08,879

filter was not turned off

46

00:02:12,390 --> 00:02:09,840

so

47

00:02:15,990 --> 00:02:12,400

instead of my face actually showing up

48

00:02:18,550 --> 00:02:16,000

on a screen i had a pink wig that i was

49

00:02:22,550 --> 00:02:18,560

using to entertain my students but

50

00:02:27,990 --> 00:02:22,560

i entertained my nasa team as well

51
00:02:28,000 --> 00:02:32,630
too late we saw you

52
00:02:37,110 --> 00:02:35,830
today actually i forgot to unmute myself

53
00:02:39,589 --> 00:02:37,120
and i think

54
00:02:43,030 --> 00:02:39,599
they heard um like tiktok or something

55
00:02:51,350 --> 00:02:45,430
i have a feeling it's his headphones

56
00:02:51,360 --> 00:02:57,270
other nasa centers um i'd just be

57
00:03:11,270 --> 00:02:58,869
i think your uh

58
00:03:24,160 --> 00:03:15,780
hey what's up everyone there we go

59
00:04:12,630 --> 00:03:47,670
[Music]

60
00:04:14,869 --> 00:04:12,640
it's been a good meeting and it's

61
00:04:16,310 --> 00:04:14,879
been our last one for the fall and i'm

62
00:04:18,069 --> 00:04:16,320
gonna miss you all

63
00:04:20,469 --> 00:04:18,079

um but i'll see you on wednesday for the

64

00:04:22,069 --> 00:04:20,479

presentations and uh and that's all i've

65

00:04:25,430 --> 00:04:22,079

got for today so
