

Lucy's Journey
"The First Flyby"

1
00:00:00,208 --> 00:00:03,211
(music throughout)

2
00:00:03,250 --> 00:00:05,166
There it is, Lucy,

3
00:00:05,166 --> 00:00:08,666
your first Trojan asteroids!

4
00:00:08,666 --> 00:00:12,750
Eurybates with its small moon, Queta!

5
00:00:15,250 --> 00:00:17,333
Earth to Lucy - Remember,

6
00:00:17,500 --> 00:00:20,666
you need to take a lot of images
of Eurybates and Queta

7
00:00:20,833 --> 00:00:24,666
in not a lot of time before you're
zooming off to your next target.

8
00:00:25,083 --> 00:00:27,333
Make sure you get all those images for us.

9
00:00:42,916 --> 00:00:46,666
It's beautiful, isn't it?

10
00:00:54,833 --> 00:00:59,750
And we're past, phew
that was quick, right?

11
00:01:00,333 --> 00:01:02,500
Get any good data?

12
00:01:03,833 --> 00:01:05,250
That's great to hear.

13

00:01:05,250 --> 00:01:06,666

Can't wait to see them.

14

00:01:06,666 --> 00:01:09,500

Just send them back to us here at Earth.
