

TRIBUTE TO Eugene Parker

1
00:00:12,950 --> 00:00:00,950
[Laughter]

2
00:00:17,269 --> 00:00:15,829
well the sun is the primary puzzle in

3
00:00:19,910 --> 00:00:17,279
the universe

4
00:00:21,349 --> 00:00:19,920
because it's the one star we can observe

5
00:00:24,070 --> 00:00:21,359
in detail

6
00:00:26,310 --> 00:00:24,080
and stars are complicated things you

7
00:00:33,590 --> 00:00:26,320
can't imagine all the strange things

8
00:00:42,620 --> 00:00:40,389
[Music]

9
00:00:50,950 --> 00:00:42,630
let's see

10
00:00:50,960 --> 00:00:54,950
[Music]

11
00:01:00,549 --> 00:00:57,189
it is my great honor

12
00:01:01,910 --> 00:01:00,559
a few days before your 90th birthday

13
00:01:04,950 --> 00:01:01,920

gene

14

00:01:06,710 --> 00:01:04,960

to announce that we're renaming the

15

00:01:09,429 --> 00:01:06,720

solar probe plus

16

00:01:14,620 --> 00:01:09,439

spacecraft to be known from now on as

17

00:01:15,810 --> 00:01:14,630

the parker solar probe congratulations

18

00:01:23,250 --> 00:01:15,820

[Applause]

19

00:01:28,840 --> 00:01:25,380

[Music]

20

00:01:31,910 --> 00:01:28,850

[Laughter]

21

00:01:33,910 --> 00:01:31,920

[Music]

22

00:01:36,550 --> 00:01:33,920

i was very moved by the

23

00:01:38,390 --> 00:01:36,560

fact that that spacecraft is going off

24

00:01:41,109 --> 00:01:38,400

into the night sky

25

00:01:42,710 --> 00:01:41,119

and he'll never come back

26

00:01:45,510 --> 00:01:42,720

when you

27

00:01:48,469 --> 00:01:45,520

have a space mission into an unknown

28

00:01:50,240 --> 00:01:48,479

place you find remarkable things that
