

DARIA OUTLAW

**HUBBLE WOMEN
MAKING HISTORY**

1
00:00:02,860 --> 00:00:01,610

[Music]

2
00:00:13,509 --> 00:00:02,870

foreign

3
00:00:18,410 --> 00:00:16,670

my name is Daria Outlaw and I am a

4
00:00:21,170 --> 00:00:18,420

systems administrator here at Goddard

5
00:00:23,570 --> 00:00:21,180

and I provide I.T support services for

6
00:00:25,310 --> 00:00:23,580

the Hubble Space Telescope project

7
00:00:29,269 --> 00:00:25,320

news administrators are I.T

8
00:00:31,730 --> 00:00:29,279

professionals that provide services to

9
00:00:34,190 --> 00:00:31,740

ensure that organizations computer

10
00:00:36,970 --> 00:00:34,200

systems are functioning our role and

11
00:00:40,729 --> 00:00:36,980

responsibility is to provide support to

12
00:00:43,190 --> 00:00:40,739

users to troubleshoot issues and to

13
00:00:46,610 --> 00:00:43,200

provide overall Network and support it

14

00:00:48,830 --> 00:00:46,620

and its infrastructure is the foundation

15

00:00:51,650 --> 00:00:48,840

that makes things possible for Hubble

16

00:00:54,229 --> 00:00:51,660

and as systems of Administrators we have

17

00:00:56,029 --> 00:00:54,239

a tendency to work in the background but

18

00:00:59,270 --> 00:00:56,039

we are the ones that that kind of keep

19

00:01:01,850 --> 00:00:59,280

things running I am from a small town in

20

00:01:04,130 --> 00:01:01,860

North Carolina and I was educated in the

21

00:01:05,870 --> 00:01:04,140

public school systems there from there I

22

00:01:08,149 --> 00:01:05,880

did my undergraduate studies at North

23

00:01:09,710 --> 00:01:08,159

Carolina Central University and my

24

00:01:12,469 --> 00:01:09,720

Graduate Studies at Johns Hopkins

25

00:01:15,070 --> 00:01:12,479

University I actually have been working

26
00:01:18,530 --> 00:01:15,080
at gato space flight center for 25 years

27
00:01:20,749 --> 00:01:18,540
once I am at the office the first thing

28
00:01:23,510 --> 00:01:20,759
I do is go through email and voicemail

29
00:01:25,550 --> 00:01:23,520
setting priorities to address user

30
00:01:28,070 --> 00:01:25,560
quests and then just kind of going out

31
00:01:31,130 --> 00:01:28,080
and to solve whatever problems that have

32
00:01:34,429 --> 00:01:31,140
have come our way alongside of that we

33
00:01:37,789 --> 00:01:34,439
have daily ongoing tasks things such as

34
00:01:40,090 --> 00:01:37,799
patching and upgrading systems are

35
00:01:43,190 --> 00:01:40,100
replacing or upgrading Hardware

36
00:01:45,289 --> 00:01:43,200
supporting computer systems servers and

37
00:01:47,149 --> 00:01:45,299
the overall Network in general my

38
00:01:51,170 --> 00:01:47,159

favorite part of the job being able to

39

00:01:54,590 --> 00:01:51,180

work directly with our users Hubble has

40

00:01:56,630 --> 00:01:54,600

a remarkable talent and being able to

41

00:01:58,730 --> 00:01:56,640

work face-to-face day to day with

42

00:02:01,550 --> 00:01:58,740

remarkable people I think is probably

43

00:02:03,230 --> 00:02:01,560

one of the highlights my advice to other

44

00:02:05,990 --> 00:02:03,240

young women that are coming up in this

45

00:02:08,089 --> 00:02:06,000

profession or any profession is to

46

00:02:10,070 --> 00:02:08,099

surround yourself with a network of

47

00:02:12,830 --> 00:02:10,080

positive people that you can learn from

48

00:02:16,010 --> 00:02:12,840

you cannot be afraid of mistakes okay

49

00:02:18,650 --> 00:02:16,020

mistakes are valuable learning tools

50

00:02:21,290 --> 00:02:18,660

being a woman in any male dominant

51
00:02:24,410 --> 00:02:21,300
industry some of the challenges that we

52
00:02:27,290 --> 00:02:24,420
face or the challenges of being seen or

53
00:02:30,110 --> 00:02:27,300
being heard or just being accepted for

54
00:02:31,970 --> 00:02:30,120
our overall gifts and talents but what

55
00:02:34,190 --> 00:02:31,980
I've learned is that you have to have

56
00:02:35,990 --> 00:02:34,200
confidence in yourself you have to

57
00:02:39,050 --> 00:02:36,000
believe in yourself stand your ground

58
00:02:41,509 --> 00:02:39,060
and just keep moving forward it gives me

59
00:02:44,390 --> 00:02:41,519
a great sense of Pride to be able to

60
00:02:47,390 --> 00:02:44,400
work on Hubble and to be able to work

61
00:02:49,309 --> 00:02:47,400
alongside so many remarkable women that

62
00:02:51,530 --> 00:02:49,319
through their profession they're
