

1
00:00:03,730 --> 00:00:00,980
foreign

2
00:00:09,589 --> 00:00:07,550
ER and I am a liaison between the office

3
00:00:11,089 --> 00:00:09,599
of communications at Goddard and the

4
00:00:12,290 --> 00:00:11,099
science and exploration director it's a

5
00:00:13,669 --> 00:00:12,300
very exciting day at Goddard space

6
00:00:16,010 --> 00:00:13,679
flight center NASA's jet propulsion

7
00:00:18,050 --> 00:00:16,020
laboratory live coverage of the historic

8
00:00:20,870 --> 00:00:18,060
launch of the James Webb Space Telescope

9
00:00:23,090 --> 00:00:20,880
I could not get it out of my head as a

10
00:00:25,250 --> 00:00:23,100
kid that the little lights we see in the

11
00:00:27,109 --> 00:00:25,260
sky are the biggest fires in the

12
00:00:29,750 --> 00:00:27,119
universe even though I might not have

13
00:00:31,370 --> 00:00:29,760

been sort of a scientist's personality I

14

00:00:32,630 --> 00:00:31,380

couldn't stop thinking about it I think

15

00:00:35,030 --> 00:00:32,640

if I were to give advice to somebody

16

00:00:37,069 --> 00:00:35,040

that's going into science so being

17

00:00:39,410 --> 00:00:37,079

different difficult doesn't mean that

18

00:00:41,630 --> 00:00:39,420

it's not the job for you you are allowed

19

00:00:44,090 --> 00:00:41,640

allowed listen to your

20

00:00:46,490 --> 00:00:44,100

own curiosity and you can say I like

21

00:00:49,490 --> 00:00:46,500

this so much I'm going to stick with it

22

00:00:52,190 --> 00:00:49,500

there are so few jobs that have the
