

HUBBLE

25

1  
00:00:15,270 --> 00:00:12,840  
for the last 25 years NASA's Hubble

2  
00:00:18,300 --> 00:00:15,280  
Space Telescope has taken us on an

3  
00:00:20,280 --> 00:00:18,310  
incredible space and time Odyssey so to

4  
00:00:22,230 --> 00:00:20,290  
commemorate its big birthday we'll take

5  
00:00:24,960 --> 00:00:22,240  
a look back at the telescopes history

6  
00:00:27,240 --> 00:00:24,970  
and introduce you to Edwin Hubble the

7  
00:00:29,460 --> 00:00:27,250  
astronomer and we'll talk to scientists

8  
00:00:31,830 --> 00:00:29,470  
who use Hubble and other telescopes to

9  
00:00:34,049 --> 00:00:31,840  
probe the distant frontiers of space

10  
00:00:36,990 --> 00:00:34,059  
we'll see how Hubble has helped us

11  
00:00:40,590 --> 00:00:37,000  
explore far-flung worlds beyond Earth

12  
00:00:43,100 --> 00:00:40,600  
and back on earth Hubble has led to

13  
00:00:45,450 --> 00:00:43,110

innovations helping our daily lives

14

00:00:47,520 --> 00:00:45,460

we'll take a look at how Hubble has

15

00:00:50,970 --> 00:00:47,530

gained science celebrity status to

16

00:00:53,939 --> 00:00:50,980

become a cultural icon in fashion movies

17

00:00:55,590 --> 00:00:53,949

and even video games but there's still a

18

00:00:57,510 --> 00:00:55,600

lot to learn about the universe

19

00:00:59,490 --> 00:00:57,520

we'll check out what scientists have up

20

00:01:03,000 --> 00:00:59,500

their sleeves for doing future

21

00:01:05,189 --> 00:01:03,010

exploration to join us throughout 2015
