

1
00:00:06,410 --> 00:00:04,849
hey kids NASA was your help we're

2
00:00:10,220 --> 00:00:06,420
building a new robot that's going to

3
00:00:13,070 --> 00:00:10,230
Mars but it doesn't have a name yet we

4
00:00:16,490 --> 00:00:13,080
can't just call it robot that's like

5
00:00:19,220 --> 00:00:16,500
naming your dog dog or if your parents

6
00:00:21,710 --> 00:00:19,230
just named you child who are asking you

7
00:00:24,080 --> 00:00:21,720
to come up with a name but what kind of

8
00:00:26,029 --> 00:00:24,090
name for our new robot the name could be

9
00:00:28,460 --> 00:00:26,039
almost anything maybe the name could

10
00:00:31,310 --> 00:00:28,470
describe how it looks so what does it

11
00:00:34,310 --> 00:00:31,320
look like it's made of metal with

12
00:00:37,220 --> 00:00:34,320
cameras for eyes a long neck one robotic

13
00:00:41,690 --> 00:00:37,230

arm and six wheels for feet so maybe a

14

00:00:47,190 --> 00:00:44,480

but that's not a very good name either

15

00:00:49,890 --> 00:00:47,200

so what kind of name could you give the

16

00:00:52,740 --> 00:00:49,900

road maybe the name could be about

17

00:00:54,710 --> 00:00:52,750

something the rover will do like zapping

18

00:00:57,240 --> 00:00:54,720

rocks to find out what they're made of

19

00:00:59,940 --> 00:00:57,250

maybe it can be named after someone from

20

00:01:04,710 --> 00:00:59,950

history but who a great scientist a

21

00:01:06,420 --> 00:01:04,720

brave pioneer you decide maybe you want

22

00:01:08,520 --> 00:01:06,430

to name it less about what it is and

23

00:01:11,130 --> 00:01:08,530

more about what you want it to be it's

24

00:01:13,020 --> 00:01:11,140

up to you and if your name is selected

25

00:01:16,140 --> 00:01:13,030

you could get the chance to sign the

26

00:01:18,120 --> 00:01:16,150

actual robur before it launches our last

27

00:01:20,609 --> 00:01:18,130

to Mars rover missions were named by

28

00:01:24,270 --> 00:01:20,619

kids just like you so we want to hear

29

00:01:27,180 --> 00:01:24,280

your ideas explore this website to find

30

00:01:29,249 --> 00:01:27,190

out more about our new Rover then give
