

1
00:00:04,700 --> 00:00:02,720
my name is Michael Agrium's i worked at

2
00:00:08,210 --> 00:00:04,710
NASA's Jet Propulsion Laboratory in

3
00:00:10,910 --> 00:00:08,220
Pasadena California I am the US aster

4
00:00:13,430 --> 00:00:10,920
science team leader this is the LA basin

5
00:00:16,400 --> 00:00:13,440
area we're coming up over palos verdes

6
00:00:19,790 --> 00:00:16,410
peninsula will turn west to come up over

7
00:00:22,160 --> 00:00:19,800
the beach areas LA Airport Marina del

8
00:00:24,290 --> 00:00:22,170
Rey crossing the Santa Monica Mountains

9
00:00:26,660 --> 00:00:24,300
you can see the Sepulveda basin in the

10
00:00:29,269 --> 00:00:26,670
left San Fernando Valley on the rights

11
00:00:32,479 --> 00:00:29,279
of burbank airport now we're turning

12
00:00:34,940 --> 00:00:32,489
East over the La Crescenta Valley the

13
00:00:37,100 --> 00:00:34,950

210 freeway is the prominent white line

14

00:00:38,959 --> 00:00:37,110

and there in the center of the image is

15

00:00:41,420 --> 00:00:38,969

the Jet Propulsion lab where I'm sitting

16

00:00:44,000 --> 00:00:41,430

right now we pursued east over the

17

00:00:46,190 --> 00:00:44,010

cities of Arcadia and Monrovia where's

18

00:00:51,170 --> 00:00:46,200

the San Gabriel River and the rock

19

00:00:54,110 --> 00:00:51,180

quarries looking south over the LA basin

20

00:00:55,939 --> 00:00:54,120

we're now seeing downtown and one of my
