ago with me now is Scott Maxwell he's

4
00:01:31,969 --> 00:01:29,850

one of the Mars rover drivers for Spirit

5
00:01:34,310 --> 00:01:31,979

and Opportunity Scott how does this

6
00:01:35,600 --> 00:01:34,320

compare well you know this isn't really

7
00:01:37,310 --> 00:01:35,610

that exciting cuz it's all happening on

8
00:01:39,140 --> 00:01:37,320

this planet right of another planet but

9
00:01:40,460 --> 00:01:39,150

it's still as I said this is definitely

10
00:01:43,160 --> 00:01:40,470

a rover that has some potential in the

11
00:01:44,840 --> 00:01:43,170

future and I look forward to driving

12
00:01:46,280 --> 00:01:44,850

this Rover on Mars with Kevin Talley

13
00:01:48,859 --> 00:01:46,290

who's also here with me and also drives

14

00:01:50,690 --> 00:01:48,869

Spirit and Opportunity what's it like

15

00:01:53,480 --> 00:01:50,700

16

00:01:55,609 --> 00:01:53,490
