

1  
00:00:30,700 --> 00:00:26,200  
I don't know what the hell I'm doing

2  
00:00:34,140 --> 00:00:30,710  
here I'm the least scientific of all the

3  
00:00:36,970 --> 00:00:34,150  
people up on the platform here today

4  
00:00:41,860 --> 00:00:36,980  
nine-year-old boys are always finding me

5  
00:00:44,260 --> 00:00:41,870  
out a ten-year-old boy a few years ago

6  
00:00:46,390 --> 00:00:44,270  
ran up to me is that mr. Bradbury I said

7  
00:00:48,520 --> 00:00:46,400  
yes he says that book of yours the

8  
00:00:52,479 --> 00:00:48,530  
Martian Chronicles I said yes he says on

9  
00:00:55,270 --> 00:00:52,489  
page 92 he says where you have the moons

10  
00:01:05,399 --> 00:00:55,280  
of Mars rising in the east I say yes he

11  
00:01:05,409 --> 00:01:17,320  
so I hit him

12  
00:01:23,200 --> 00:01:19,900  
I was hoping that during the last few

13  
00:01:25,210 --> 00:01:23,210

days as we got closer to Mars and the

14

00:01:27,130 --> 00:01:25,220

dust cleared when we see a lot of

15

00:01:43,630 --> 00:01:27,140

Martians standing there with huge sign

16

00:01:45,700 --> 00:01:43,640

saying Bradbury was right along - though

17

00:01:47,440 --> 00:01:45,710

I'm going to keep this short because I'd

18

00:01:50,380 --> 00:01:47,450

much rather listen to our scientific

19

00:01:52,480 --> 00:01:50,390

friends here today tell us about what's

20

00:01:54,160 --> 00:01:52,490

coming up this week but I've every time

21

00:01:56,710 --> 00:01:54,170

I get a group of people together and

22

00:02:00,390 --> 00:01:56,720

have them trapped in a pile like this I

23

00:02:02,980 --> 00:02:00,400

bring a poem say and you can't escape me

24

00:02:05,380 --> 00:02:02,990

but luckily it's a short poem but it

25

00:02:07,390 --> 00:02:05,390

sums up some of my feelings on why I

26

00:02:09,790 --> 00:02:07,400

love space travel why I write science

27

00:02:12,820 --> 00:02:09,800

fiction why I'm intrigued with what's

28

00:02:16,090 --> 00:02:12,830

going on this weekend of Mars and part

29

00:02:18,730 --> 00:02:16,100

of this has my philosophy about space

30

00:02:21,250 --> 00:02:18,740

travel and initial permit or read it to

31

00:02:23,350 --> 00:02:21,260

you it's very very short the fence we

32

00:02:26,290 --> 00:02:23,360

walked between the years that balance us

33

00:02:28,090 --> 00:02:26,300

serene was a place half in the sky we're

34

00:02:30,520 --> 00:02:28,100

in the green of leaf and promising of

35

00:02:33,070 --> 00:02:30,530

peach we'd reach our hand attention

36

00:02:36,160 --> 00:02:33,080

almost touched the sky if we could reach

37

00:02:40,930 --> 00:02:36,170

and touch we set to teach us not to

38

00:02:43,270 --> 00:02:40,940

never to be dead we ate and almost

39

00:02:46,420 --> 00:02:43,280

touched that stuff our reach was never

40

00:02:49,540 --> 00:02:46,430

quite enough if only we had tire bin and

41

00:02:51,610 --> 00:02:49,550

touched God's cuff is his hem we would

42

00:02:54,699 --> 00:02:51,620

not have to go with them who've gone

43

00:02:57,670 --> 00:02:54,709

before who sure does us stood tiles they

44

00:02:59,890 --> 00:02:57,680

could stand and hope by stretching tell

45

00:03:02,340 --> 00:02:59,900

that they might keep their land their

46

00:03:05,229 --> 00:03:02,350

home their heart their flesh and soul

47

00:03:09,130 --> 00:03:05,239

but they like us for standing in a hole

48

00:03:12,190 --> 00:03:09,140

Oh Thomas will erase one day stand

49

00:03:14,440 --> 00:03:12,200

really town across the void across the

50

00:03:17,410 --> 00:03:14,450

universe and all and measured out with

51  
00:03:20,560 --> 00:03:17,420  
rocket fire at last put Adams finger

52  
00:03:24,100 --> 00:03:20,570  
forth as on the Sistine ceiling and

53  
00:03:25,400 --> 00:03:24,110  
God's hand come down the other way to

54  
00:03:28,370 --> 00:03:25,410  
measure man

55  
00:03:32,540 --> 00:03:28,380  
find him good and gift him with forevers

56  
00:03:36,140 --> 00:03:32,550  
day I worked for that short man large

57  
00:03:39,260 --> 00:03:36,150  
dream I send my Rockets forth between my

58  
00:03:41,930 --> 00:03:39,270  
ears hoping an inch of good is worth a

59  
00:03:44,840 --> 00:03:41,940  
pound of years aching to hear a voice

60  
00:03:48,200 --> 00:03:44,850  
cried back along the universal mile
