

1

00:00:07,000 --> 00:00:13,000

Things are looking good. Coming up on entry

2

00:00:13,000 --> 00:00:19,000

Vehicle reports entry interface

3

00:00:19,000 --> 00:00:23,000

We're beginning to feel the atmosphere as we go in here

4

00:00:23,000 --> 00:00:29,000

Alright, it is reporting that we are seeing G's on the order of 11 or 12 earth G's

5

00:00:29,000 --> 00:00:32,000

Bank reversal 2 is starting

6

00:00:32,000 --> 00:00:38,000

We are now getting telemetry from Odyssey

7

00:00:38,000 --> 00:00:45,000

We should have parachute deploy around Mach 1.7

8

00:00:45,000 --> 00:00:48,000

Parachute has deployed

9

00:00:48,000 --> 00:00:51,000

We are decelerating

10

00:00:51,000 --> 00:00:53,000

Heat shield has separated, we are locked on the ground

11

00:00:53,000 --> 00:01:00,000

We're down to 90 meters per second at an altitude of 6.5 kilometers and descending

12

00:01:00,000 --> 00:01:06,000

Standing by for backshell separation

13

00:01:06,000 --> 00:01:13,000

We are in powered flight

14  
00:01:13,000 --> 00:01:17,000  
We are at altitude 1 kilometer and descending

15  
00:01:17,000 --> 00:01:19,000  
Standing by for sky crane

16  
00:01:19,000 --> 00:01:25,000  
Sky crane is starting

17  
00:01:25,000 --> 00:01:35,000  
Signal from Odyssey remains strong

18  
00:01:35,000 --> 00:01:37,000  
Touchdown confirmed! We're safe on Mars!

19  
00:01:37,000 --> 00:02:01,000  
cheering, applause
