00:00:06,490 --> 00:00:12,500
things are looking good monetary

2
00:00:17,820 --> 00:00:16,260
it will report saturator face at this

3
00:00:19,440 --> 00:00:17,830
time it'll get pressurizing the

4
00:00:21,750 --> 00:00:19,450
compulsion system to increase the thrust

5
00:00:22,830 --> 00:00:21,760
of the system no use that for all the

6
00:00:31,290 --> 00:00:22,840
maneuvering in the atmosphere we're

7
00:00:37,170 --> 00:00:31,300
about to do we're standing by for guided

8
00:00:39,810 --> 00:00:37,180
Spartan start of guided entry the

9
00:00:43,110 --> 00:00:39,820
obviating to feel the atmosphere as we

10
00:00:45,290 --> 00:00:43,120
go in here vehicles just recorded via

11
00:00:47,550 --> 00:00:45,300
tones that it has started guided entry

12
00:00:50,780 --> 00:00:47,560
this time the equal is meeting the

13
00:00:54,390 --> 00:00:50,790

spirits weight to the target machine

14

00:00:57,300 --> 00:00:54,400

deceleration starting this first

15

00:01:09,750 --> 00:00:57,310

anniversary it is recording that we are

decelerating detailed stuff has

19

00:01:27,060 --> 00:01:25,450

separated where we found the ground

20

00:01:29,399 --> 00:01:27,070

expand we're down to 90 meters per

21

00:01:33,300 --> 00:01:29,409

second at an altitude of 6.5 kilometers

22

00:01:38,500 --> 00:01:33,310

in setting standing by for backshell

23

00:01:38,510 --> 00:01:45,719

we are in powered flight

24

00:01:49,719 --> 00:01:47,340

for an altitude of 1 kilometer

25

00:01:52,569 --> 00:01:49,729
