

1  
00:00:22,779 --> 00:00:19,929  
now let's go great chief chief is go

2  
00:00:25,150 --> 00:00:22,789  
project management no all stations

3  
00:00:32,400 --> 00:00:25,160  
sending deploy ruffle deploy seek

4  
00:00:42,640 --> 00:00:35,050  
nominal post bloom telemetry observed

5  
00:00:45,250 --> 00:00:42,650  
everything looking good thank you once

6  
00:00:48,130 --> 00:00:45,260  
we cross 93,000 in two steps we will

7  
00:00:49,840 --> 00:00:48,140  
enable success criterion in which we

8  
00:00:51,790 --> 00:00:49,850  
should reach completion around ninety

9  
00:00:55,240 --> 00:00:51,800  
seven thousand three hundred steps if

10  
00:00:59,140 --> 00:00:55,250  
everything goes / predicts we got about

11  
00:01:04,830 --> 00:00:59,150  
one more minute okay we're seeing the

12  
00:01:12,760 --> 00:01:10,780  
light GNC go we are in point rwa now and

13  
00:01:16,270 --> 00:01:12,770

we're in rate matching portion of our

14

00:01:19,030 --> 00:01:16,280

turn excellent FP reporting we're now

15

00:01:21,010 --> 00:01:19,040

insist stand by great thank you deploy

16

00:01:23,980 --> 00:01:21,020

is completed deploy tivities completed

17

00:01:32,800 --> 00:01:23,990

we're back on the cs idle and we'll be

18

00:01:34,359 --> 00:01:32,810

looking at the data we've worked for six

19

00:01:37,900 --> 00:01:34,369

years to get to this point it went

20

00:01:40,690 --> 00:01:37,910

appeared to go just wonderfully well and
