

SPITZER
FINAL VOICE

Paul Hertz

1
00:00:09,920 --> 00:00:07,700
good afternoon I'm welcoming all the

2
00:00:12,740 --> 00:00:09,930
family and friends of the Spitzer Space

3
00:00:17,630 --> 00:00:12,750
Telescope as we see the end of mission

4
00:00:23,090 --> 00:00:20,030
it is a legacy and we are here to

5
00:00:24,170 --> 00:00:23,100
celebrate the Spitzer Space Telescope we

6
00:00:26,480 --> 00:00:24,180
confirm the loss of the high-gain

7
00:00:29,420 --> 00:00:26,490
antenna signal at two to three zero

8
00:00:32,600 --> 00:00:29,430
three one the first thing we think about

9
00:00:34,610 --> 00:00:32,610
of course is the science but immediately

10
00:00:36,770 --> 00:00:34,620
with it we think of the team right the

11
00:00:39,799 --> 00:00:36,780
team exceeded any and all expectations

12
00:00:42,530 --> 00:00:39,809
here the team of people within NASA JPL

13
00:00:44,600 --> 00:00:42,540

but also contractors Lockheed Martin all

14

00:00:46,790 --> 00:00:44,610

these people who brought their best to

15

00:00:48,900 --> 00:00:46,800

the table to help us look at the sky in

16

00:00:51,510 --> 00:00:48,910

a new way

17

00:00:53,970 --> 00:00:51,520

submission manager go ahead mr. manager

18

00:00:57,030 --> 00:00:53,980

losses signal has been confirmed Spitzer

19

00:01:00,120 --> 00:00:57,040

entered safe mode at two to three zero

20

00:01:02,280 --> 00:01:00,130

three one so at this time all of the

21

00:01:03,900 --> 00:01:02,290

members that supported the mission

22

00:01:06,780 --> 00:01:03,910

that's in the Friends of family Harry

23

00:01:08,250 --> 00:01:06,790

could you please stand up to really

24

00:01:10,500 --> 00:01:08,260

acknowledge all of the great

25

00:01:12,270 --> 00:01:10,510

accomplishments that we have had with

26

00:01:16,910 --> 00:01:12,280

the Spitzer Space Telescope

27

00:01:23,719 --> 00:01:20,870

it's a can-do willdo attitude that makes

28

00:01:26,810 --> 00:01:23,729

these things possible at this time I

29

00:01:31,359 --> 00:01:26,820

would be clear the spritzer spacecraft

30

00:01:36,459 --> 00:01:33,639

if you understand how Spitzer works how

31

00:01:39,370 --> 00:01:36,469

intricate and well tuned it is and how

32

00:01:41,950 --> 00:01:39,380

it represents the efforts of thousands

33

00:01:43,150 --> 00:01:41,960

of people you appreciate what human
