

1
00:00:04,789 --> 00:00:03,909
so we are pulling in those data products

2
00:00:07,430 --> 00:00:04,799
right now

3
00:00:09,270 --> 00:00:07,440
we are processing those data products

4
00:00:12,709 --> 00:00:09,280
dnc avr's are looking nominal

5
00:00:15,669 --> 00:00:12,719
we see z going to

6
00:00:16,870 --> 00:00:15,679
five meters and then in the y axis which

7
00:00:18,310 --> 00:00:16,880
is relative

8
00:00:19,990 --> 00:00:18,320
to the starting position we see the
