

1  
00:00:15,829 --> 00:00:13,910  
we are just now joining the meeting that

2  
00:00:36,050 --> 00:00:15,839  
you initiated and we see your video it

3  
00:00:36,060 --> 00:00:44,150  
[Music]

4  
00:00:47,830 --> 00:00:45,670  
we feel that the hololens will be very

5  
00:00:50,389 --> 00:00:47,840  
useful for real-time guidance as we work

6  
00:00:52,069 --> 00:00:50,399  
to free harness cables so that you can

7  
00:01:03,670 --> 00:00:52,079  
pull out the existing splice 7 and

8  
00:01:06,149 --> 00:01:05,270  
we can talk you through most of the

9  
00:01:25,590 --> 00:01:06,159  
steps so you don't need to keep

10  
00:01:30,390 --> 00:01:28,789  
j16 and j17 these little fasteners on

11  
00:01:31,749 --> 00:01:30,400  
either side are non-captive is that

12  
00:01:34,390 --> 00:01:31,759  
correct

13  
00:01:35,830 --> 00:01:34,400

this activity is called remove and

14

00:01:36,710 --> 00:01:35,840

replace

15

00:01:40,550 --> 00:01:36,720

and

16

00:01:43,190 --> 00:01:40,560

it involves replacing the existing piece

17

00:01:45,990 --> 00:01:43,200

of hardware it's very important that

18

00:01:47,109 --> 00:01:46,000

that every step is followed very

19

00:01:49,350 --> 00:01:47,119

carefully

20

00:01:53,190 --> 00:01:49,360

and she gets the go ahead from the team

21

00:01:56,709 --> 00:01:54,630

uh do you want me to try to troubleshoot

22

00:01:58,149 --> 00:01:56,719

the hololens or continue to disconnect

23

00:02:00,230 --> 00:01:58,159

the connectors

24

00:02:06,069 --> 00:02:00,240

disconnect

25

00:02:12,790 --> 00:02:09,749

it's a good news the um 564 does fine

26

00:02:14,470 --> 00:02:12,800

i've removed the p16 connector then i

27

00:02:18,220 --> 00:02:14,480

tried to recover the call i closed

28

00:02:27,350 --> 00:02:18,230

everything i could find to close

29

00:02:30,790 --> 00:02:28,869

i think it's going to be really fruitful

30

00:02:32,390 --> 00:02:30,800

for the future this will open up a new

31

00:02:33,589 --> 00:02:32,400

branch of

32

00:02:36,869 --> 00:02:33,599

of uh

33

00:02:38,229 --> 00:02:36,879

physics research in space we have a good

34

00:02:40,070 --> 00:02:38,239

instrument install and a good

35

00:02:42,070 --> 00:02:40,080

demonstration of the hololens virtual

36

00:02:42,790 --> 00:02:42,080

reality glasses with the remote assist

37

00:02:44,550 --> 00:02:42,800

so

38

00:02:46,390 --> 00:02:44,560

thank you again we're looking forward to

39

00:02:49,030 --> 00:02:46,400

powering this up and demonstrating a

40

00:03:08,920 --> 00:02:49,040

successful r
