

1
00:00:04,870 --> 00:00:02,389
it's a real privilege to be uh be here

2
00:00:07,349 --> 00:00:04,880
in space uh our crew has obviously been

3
00:00:09,110 --> 00:00:07,359
working uh very hard getting uh the

4
00:00:10,150 --> 00:00:09,120
shuttle configured uh

5
00:00:11,589 --> 00:00:10,160
for

6
00:00:12,629 --> 00:00:11,599
the rest of our mission as you can see

7
00:00:14,230 --> 00:00:12,639
there i think there were just a couple

8
00:00:16,630 --> 00:00:14,240
people a couple of the crew members

9
00:00:18,710 --> 00:00:16,640
still working behind us we haven't had

10
00:00:21,750 --> 00:00:18,720
a really long day everything's going

11
00:00:26,470 --> 00:00:21,760
well and i'll turn the mic over to barb

12
00:00:30,790 --> 00:00:28,470
thanks scott hey it's great being up

13
00:00:33,270 --> 00:00:30,800

here we've been working really hard but

14

00:00:35,190 --> 00:00:33,280

it's it's a really good fun kind of work

15

00:00:36,549 --> 00:00:35,200

so we're really having a great time and

16

00:00:38,069 --> 00:00:36,559

we're very much looking forward to

17

00:00:40,069 --> 00:00:38,079

docking with the international space

18

00:00:43,750 --> 00:00:40,079

station tomorrow and joining in with our

19

00:00:45,430 --> 00:00:43,760

crewmates uh clay oleg and fyodor

20

00:00:48,470 --> 00:00:45,440

guess one thing i wanted to tell you

21

00:00:50,709 --> 00:00:48,480

about was when you first get into orbit

22

00:00:52,790 --> 00:00:50,719

it takes a little getting used to and

23

00:00:55,029 --> 00:00:52,800

all of yesterday even though i kept my

24

00:00:56,630 --> 00:00:55,039

head upright so it looked like a normal

25

00:00:58,869 --> 00:00:56,640

feeling in a normal floor and normal

26

00:01:00,950 --> 00:00:58,879

walls i felt like i was upside down the

27

00:01:03,430 --> 00:01:00,960

whole time

28

00:01:05,830 --> 00:01:03,440

and the other surprise is when you have

29

00:01:08,310 --> 00:01:05,840

something that you just set aside even

30

00:01:10,870 --> 00:01:08,320

if it has velcro on it

31

00:01:12,550 --> 00:01:10,880

you set it aside and within 30 seconds

32

00:01:14,230 --> 00:01:12,560

it's gone and you have no idea where it

33

00:01:15,590 --> 00:01:14,240

went to so we've got a lot of fun

34

00:01:19,830 --> 00:01:15,600

challenges up here and we'll be doing

35

00:01:24,469 --> 00:01:22,469

and with that we'll have to get back to

36

00:01:26,469 --> 00:01:24,479

work we still have a

37

00:01:27,830 --> 00:01:26,479

rendezvous homes burn to complete

38

00:01:30,230 --> 00:01:27,840

tonight before we go to bed we'll be
