

1
00:00:07,909 --> 00:00:05,670

uh

2
00:00:10,950 --> 00:00:07,919

how many times have you strapped the

3
00:00:12,789 --> 00:00:10,960

astronaut into the motion base

4
00:00:15,589 --> 00:00:12,799

who knows how many hundreds of times for

5
00:00:17,990 --> 00:00:15,599

me hundreds probably not a hundred but

6
00:00:19,189 --> 00:00:18,000

yeah what we do is we suit you guys up

7
00:00:20,870 --> 00:00:19,199

in your suits

8
00:00:21,830 --> 00:00:20,880

and we make sure that we inspect all the

9
00:00:23,509 --> 00:00:21,840

suits

10
00:00:24,950 --> 00:00:23,519

verify that it's flight worthy for you

11
00:00:27,109 --> 00:00:24,960

to go on the shuttle

12
00:00:28,470 --> 00:00:27,119

um the actual strapping guys are for

13
00:00:30,950 --> 00:00:28,480

more of the insert techs those are the

14

00:00:34,709 --> 00:00:30,960

guys that go in on the orbiter on launch

15

00:00:36,950 --> 00:00:34,719

day and strap you guys in you in

16

00:00:38,470 --> 00:00:36,960

and do all the synthetic work but we do

17

00:00:42,150 --> 00:00:38,480

all the suit repair

18

00:00:44,389 --> 00:00:42,160

and uh processing and inspections thanks

19

00:00:47,350 --> 00:00:44,399

once you finish strapping in

20

00:00:49,110 --> 00:00:47,360

you close up the hatch you guys get away

21

00:00:51,110 --> 00:00:49,120

and you see the orbiter light up how do

22

00:00:55,270 --> 00:00:51,120

you feel most impressive thing i've ever

23

00:00:58,229 --> 00:00:55,280

seen in my life i'm scared yeah

24

00:00:59,990 --> 00:00:58,239

i worry so much about you guys it's very

25

00:01:01,510 --> 00:01:00,000

scary it does

26
00:01:03,270 --> 00:01:01,520
but it's you know it's something we have

27
00:01:05,270 --> 00:01:03,280
to do the future

28
00:01:07,670 --> 00:01:05,280
for the next generation of explorers for

29
00:01:10,149 --> 00:01:07,680
exploration and your role in this is

30
00:01:11,510 --> 00:01:10,159
very very uh very important uh you know

31
00:01:13,270 --> 00:01:11,520
we and the astronaut core appreciate

32
00:01:14,550 --> 00:01:13,280
what you do and

33
00:01:17,590 --> 00:01:14,560
you know we really thank you for what

34
00:01:19,510 --> 00:01:17,600
you do any uh any other words to say

35
00:01:21,510 --> 00:01:19,520
i look forward to seeing you on lunch

36
00:01:23,429 --> 00:01:21,520
today i'm sure you'll have a fun time
