5
00:00:15,270 --> 00:00:12,639
priorities first here what are your

6
00:00:17,430 --> 00:00:15,280
priorities number one is email of course

7
00:00:20,710 --> 00:00:17,440
what's up with these uh evas you know

8
00:00:22,470 --> 00:00:20,720
with this sts-120 it's this little torn

9
00:00:24,150 --> 00:00:22,480
torn piece on the solar array do you

10
00:00:26,710 --> 00:00:24,160
think we need to fix it we spent the

11
00:00:28,550 --> 00:00:26,720
last year perfecting three beautiful

12
00:00:29,830 --> 00:00:28,560
evas where we go out and do spacewalks

13
00:00:31,349 --> 00:00:29,840

and take everything we make sure all the

14

00:00:32,870 --> 00:00:31,359

tasks are easy to do

15

00:00:34,950 --> 00:00:32,880

and then here we are

16

00:00:37,590 --> 00:00:34,960

five weeks prior to launch

17

00:00:39,430 --> 00:00:37,600

and the best laid plans of mice and men

18

00:00:40,389 --> 00:00:39,440

out the window they're changing

19

00:00:44,069 --> 00:00:40,399

everything

20

00:00:45,670 --> 00:00:44,079

wait and see all right but flexibility

21

00:00:47,190 --> 00:00:45,680

is the key to air power

22

00:00:48,950 --> 00:00:47,200
