

1  
00:00:10,080 --> 00:00:19,429  
congratulations

2  
00:00:23,830 --> 00:00:22,710  
i have a question here from stefan heinz

3  
00:00:25,830 --> 00:00:23,840  
in germany

4  
00:00:27,509 --> 00:00:25,840  
he says hi up there i'd like to know if

5  
00:00:29,990 --> 00:00:27,519  
you experience any kind of sensory

6  
00:00:31,910 --> 00:00:30,000  
dysfunctions or hallucinations

7  
00:00:34,150 --> 00:00:31,920  
maybe like little flashes seen with

8  
00:00:36,150 --> 00:00:34,160  
closed eyes caused by high-energy cosmic

9  
00:00:37,670 --> 00:00:36,160  
radiation thank you and greetings from

10  
00:00:39,590 --> 00:00:37,680  
germany

11  
00:00:41,830 --> 00:00:39,600  
well stefan

12  
00:00:44,630 --> 00:00:41,840  
i haven't had any hallucinations that i

13  
00:00:46,790 --> 00:00:44,640

know of i feel pretty normal up here but

14

00:00:48,549 --> 00:00:46,800

i you know i also heard about this um

15

00:00:50,389 --> 00:00:48,559

idea of being able to see flashes in

16

00:00:53,029 --> 00:00:50,399

your eyes when uh

17

00:00:54,869 --> 00:00:53,039

background the cosmic radiation um hits

18

00:00:55,910 --> 00:00:54,879

your retina and i've been kind of hoping

19

00:00:58,229 --> 00:00:55,920

to see that

20

00:00:59,990 --> 00:00:58,239

the thing is i'm sleeping in a in a

21

00:01:02,630 --> 00:01:00,000

sleep station called the test the

22

00:01:04,070 --> 00:01:02,640

temporary sleep stations that we have um

23

00:01:06,550 --> 00:01:04,080

newer ones that are coming up on this

24

00:01:08,230 --> 00:01:06,560

next child flight actually and i think

25

00:01:10,230 --> 00:01:08,240

maybe there's a little more shielding in

26

00:01:12,390 --> 00:01:10,240

there and i might have to try sleeping

27

00:01:14,390 --> 00:01:12,400

somewhere else and and

28

00:01:16,550 --> 00:01:14,400

see if i can see them so i'm still

29

00:01:17,830 --> 00:01:16,560

hoping to see that but so far i haven't
