

1
00:00:05,190 --> 00:00:03,189

hi

2
00:00:06,630 --> 00:00:05,200

i'm greg shamatoff flight engineer and

3
00:00:09,270 --> 00:00:06,640

science officer on the international

4
00:00:12,070 --> 00:00:09,280

space station welcome aboard

5
00:00:13,749 --> 00:00:12,080

welcome to chess earth versus space

6
00:00:17,430 --> 00:00:13,759

i'm very excited to play this game with

7
00:00:19,189 --> 00:00:17,440

you thanks for the challenge i accept

8
00:00:20,870 --> 00:00:19,199

welcome aboard to the us chess

9
00:00:22,230 --> 00:00:20,880

federation and especially the kids of

10
00:00:24,790 --> 00:00:22,240

bellevue washington who are the real

11
00:00:26,710 --> 00:00:24,800

leaders in this game

12
00:00:28,070 --> 00:00:26,720

really glad you want to play because i

13
00:00:30,550 --> 00:00:28,080

think chess is a great game for

14

00:00:32,389 --> 00:00:30,560

stimulating young minds for analytical

15

00:00:34,389 --> 00:00:32,399

thinking which is so important in all

16

00:00:36,470 --> 00:00:34,399

aspects of life but especially math

17

00:00:38,709 --> 00:00:36,480

science and engineering all the things

18

00:00:41,510 --> 00:00:38,719

that make the space station possible and

19

00:00:43,270 --> 00:00:41,520

and our way of life possible

20

00:00:45,350 --> 00:00:43,280

so um

21

00:00:47,110 --> 00:00:45,360

you guys have moved and um

22

00:00:49,029 --> 00:00:47,120

it's my move now i've got this velcro

23

00:00:50,869 --> 00:00:49,039

chess board here that keeps the pieces

24

00:00:52,310 --> 00:00:50,879

from flying away although a few of them

25

00:00:54,229 --> 00:00:52,320

have flown away and i've had to chase

26

00:00:57,670 --> 00:00:54,239

them down and and find them they usually

27

00:01:01,670 --> 00:01:00,150

but it's your move

28

00:01:03,990 --> 00:01:01,680

good luck
