

1  
00:00:21,830 --> 00:00:13,959  
Mars my question is how did you know

2  
00:00:23,300 --> 00:00:21,840  
what is your question about whether or

3  
00:00:25,400 --> 00:00:23,310  
not what you do when the space your

4  
00:00:27,200 --> 00:00:25,410  
spacesuit is broken well you hope you

5  
00:00:29,089 --> 00:00:27,210  
don't have a good you don't help but you

6  
00:00:31,070 --> 00:00:29,099  
don't have a broken spacesuit that's why

7  
00:00:32,840 --> 00:00:31,080  
we take a lot of care in the design of

8  
00:00:34,760 --> 00:00:32,850  
the space suit so it's very reliable

9  
00:00:36,260 --> 00:00:34,770  
Plus whenever we go out the door we just

10  
00:00:37,400 --> 00:00:36,270  
don't jump in our spacesuits and go

11  
00:00:39,680 --> 00:00:37,410  
right away we spend a lot of time

12  
00:00:41,090 --> 00:00:39,690  
preparing for that spacewalk that's what

13  
00:00:43,310 --> 00:00:41,100

we're doing today because we have a

14

00:00:45,229 --> 00:00:43,320

spacewalk coming up tomorrow so again

15

00:00:47,150 --> 00:00:45,239

the way that you keep yourself safe is

16

00:00:48,619 --> 00:00:47,160

by checking and the double checking and
