

1
00:00:08,629 --> 00:00:06,070
here in baikonur since we got here we

2
00:00:11,270 --> 00:00:08,639
have been again refueling reviewing the

3
00:00:13,110 --> 00:00:11,280
flight plan for the soyuz flight

4
00:00:14,390 --> 00:00:13,120
primarily reviewing the plan for the

5
00:00:15,509 --> 00:00:14,400
handover

6
00:00:18,310 --> 00:00:15,519
when we

7
00:00:20,230 --> 00:00:18,320
uh hand over to relieve mike and gennady

8
00:00:22,390 --> 00:00:20,240
on board and of course uh gee will

9
00:00:23,590 --> 00:00:22,400
return to earth with them

10
00:00:27,830 --> 00:00:23,600
we've been

11
00:00:29,509 --> 00:00:27,840
the soyuz spacecraft and did what we

12
00:00:31,349 --> 00:00:29,519
call the first fit check where we got

13
00:00:33,190 --> 00:00:31,359

into our spacesuits

14

00:00:35,030 --> 00:00:33,200

climbed into the vehicle strapped in

15

00:00:37,190 --> 00:00:35,040

practiced basically the ingress the same

16

00:00:39,910 --> 00:00:37,200

way we'll do it on the launch pad

17

00:00:42,709 --> 00:00:39,920

the spacecraft is ready to go just they

18

00:00:44,389 --> 00:00:42,719

just finished yesterday refilling it

19

00:00:46,630 --> 00:00:44,399

or getting it full of fuel

20

00:00:49,110 --> 00:00:46,640

um and getting it ready to for the

21

00:00:51,510 --> 00:00:49,120

second fit check which we'll do uh later

22

00:00:54,069 --> 00:00:51,520

this week uh and then it will be mated

23

00:00:57,110 --> 00:00:54,079

to the rocket uh the booster

24

00:00:58,950 --> 00:00:57,120

um and and gotten ready to be taken out
