

1
00:00:11,110 --> 00:00:09,190
hi our names are lauren and nicole we

2
00:00:13,749 --> 00:00:11,120
heard about your question why should the

3
00:00:16,630 --> 00:00:13,759
united states fullest base and we did a

4
00:00:17,590 --> 00:00:16,640
little research and we came up with some

5
00:00:19,109 --> 00:00:17,600
stuff

6
00:00:23,029 --> 00:00:19,119
so we're going to show you what we've

7
00:00:26,950 --> 00:00:25,429
this is what everyday pollution water

8
00:00:29,109 --> 00:00:26,960
looks like

9
00:00:33,590 --> 00:00:29,119
this is what nasa does to it

10
00:00:36,470 --> 00:00:33,600
they develop machines to help to help

11
00:00:39,430 --> 00:00:36,480
clean polluted water and make it and

12
00:00:41,910 --> 00:00:39,440
make it drinking water for every day

13
00:00:50,229 --> 00:00:41,920

now you wouldn't want to drink this

14

00:00:55,270 --> 00:00:52,389

they they also made this comfy

15

00:00:57,350 --> 00:00:55,280

temperature pillow with memories

16

00:00:59,590 --> 00:00:57,360

see if you squish it down

17

00:01:02,470 --> 00:00:59,600

and it just comes right back up to shape

18

00:01:08,070 --> 00:01:02,480

isn't it amazing you can sleep very well

19

00:01:13,190 --> 00:01:10,390

this this

20

00:01:16,310 --> 00:01:13,200

silver snoopy was an accomplishment of

21

00:01:19,590 --> 00:01:16,320

nasa a reward for helping

22

00:01:21,109 --> 00:01:19,600

the fir the first men on the moon for

23

00:01:27,190 --> 00:01:21,119

protecting the first men on the moon

24

00:01:31,910 --> 00:01:29,749

i mean nasa also makes meteorite

25

00:01:33,830 --> 00:01:31,920

trackers which helps us find where the

26
00:01:36,069 --> 00:01:33,840
meteorites are going and when are they

27
00:01:38,550 --> 00:01:36,079
coming so we don't have a big huge

28
00:01:41,030 --> 00:01:38,560
meteorite crashing down and somewhere

29
00:01:45,270 --> 00:01:41,040
and explode or make a

30
00:01:50,789 --> 00:01:49,510
this medallion was part of the first

31
00:01:53,109 --> 00:01:50,799
rocket

32
00:01:55,030 --> 00:01:53,119
and laying on the moon lauren will you

33
00:01:57,350 --> 00:01:55,040
please beat the back of this wonderful

34
00:02:02,950 --> 00:01:57,360
medallion

35
00:02:06,709 --> 00:02:02,960
spacecrafts colombia and people

36
00:02:08,949 --> 00:02:06,719
that took astronauts armstrong algin and

37
00:02:12,390 --> 00:02:08,959
the collins on their

38
00:02:15,030 --> 00:02:12,400

historic apollo 11 mission that resulted

39

00:02:16,390 --> 00:02:15,040

in the first landing of man on the main

40

00:02:19,190 --> 00:02:16,400

thank you

41

00:02:22,309 --> 00:02:19,200

nasa also made these spacesuits

42

00:02:24,630 --> 00:02:22,319

they made it tight so the oxygen will be

43

00:02:26,869 --> 00:02:24,640

kept in but of course they have they

44

00:02:28,630 --> 00:02:26,879

don't have their feet out they also have

45

00:02:29,830 --> 00:02:28,640

boots and gloves this is just a

46

00:02:33,270 --> 00:02:29,840

prototype

47

00:03:08,070 --> 00:02:33,280

they also have dome light glass helmets

48

00:03:08,080 --> 00:03:11,430

like these

49

00:03:17,270 --> 00:03:14,710

now nasa also made these cordless tools

50

00:03:19,509 --> 00:03:17,280

that you can use in everyday life so you

51
00:03:21,750 --> 00:03:19,519
could go out on a prairie or something

52
00:03:24,149 --> 00:03:21,760
and maybe what before we had a battery

53
00:03:27,030 --> 00:03:24,159
charger of course

54
00:03:30,070 --> 00:03:27,040
and also nasa made the ear thermometer

55
00:03:33,110 --> 00:03:30,080
to help us check if we had a fever

56
00:03:37,350 --> 00:03:33,120
if we're really sick or if we're not

57
00:03:39,509 --> 00:03:37,360
and also they may set the satellite

58
00:03:41,830 --> 00:03:39,519
they would develop the satellite to help

59
00:03:42,789 --> 00:03:41,840
us to help us use cell phones

60
00:04:00,550 --> 00:03:42,799
what

61
00:04:01,750 --> 00:04:00,560
they may they developed machines to help

62
00:04:02,550 --> 00:04:01,760
to

63
00:04:10,309 --> 00:04:02,560

make

64

00:04:14,550 --> 00:04:12,550

this is what nasa does

65

00:04:17,430 --> 00:04:14,560

they they make these tempur-pedic

66

00:04:19,590 --> 00:04:17,440

pillows to help us help us have a better

67

00:04:21,349 --> 00:04:19,600

sleep and then make these astronaut

68

00:04:24,070 --> 00:04:21,359

suits to help us

69

00:04:25,990 --> 00:04:24,080

be able to live in space

70

00:04:27,830 --> 00:04:26,000

this is what nasa does

71

00:04:29,270 --> 00:04:27,840

they track the media

72

00:04:31,030 --> 00:04:29,280

and they make

73

00:04:35,830 --> 00:04:31,040

they track down the meteorites and they

74

00:04:40,870 --> 00:04:39,189

this is what nasa does they make

75

00:04:43,749 --> 00:04:40,880

cordless tools

76

00:04:45,590 --> 00:04:43,759

to help to help us make homes if we

77

00:04:48,550 --> 00:04:45,600

didn't have these we would probably be

78

00:04:54,830 --> 00:04:50,310

this is what nasa does

79

00:04:59,510 --> 00:04:56,790

also

80

00:05:05,189 --> 00:04:59,520

this is what nasa does teenagers want to
