

1  
00:00:10,390 --> 00:00:08,710  
the hatches between space shuttle

2  
00:00:13,190 --> 00:00:10,400  
discovery and the international space

3  
00:00:16,070 --> 00:00:13,200  
station were closed on sunday after

4  
00:00:18,790 --> 00:00:16,080  
nearly eight full days of joint docked

5  
00:00:21,109 --> 00:00:18,800  
operations between the two crews the

6  
00:00:23,670 --> 00:00:21,119  
last of the transfers were moved across

7  
00:00:26,150 --> 00:00:23,680  
the hatches earlier in the day most

8  
00:00:29,029 --> 00:00:26,160  
important ones late in the day with the

9  
00:00:31,589 --> 00:00:29,039  
transfer of medical experiment samples

10  
00:00:33,510 --> 00:00:31,599  
that need to be kept refrigerated before

11  
00:00:36,310 --> 00:00:33,520  
they were moved on to the shuttle they

12  
00:00:38,549 --> 00:00:36,320  
were wrapped in double cold bags and

13  
00:00:40,950 --> 00:00:38,559

moved on to the shuttle's portable

14

00:00:44,470 --> 00:00:40,960

refrigerators so they can be kept at

15

00:00:46,790 --> 00:00:44,480

temperature until discovery lands and be

16

00:00:49,029 --> 00:00:46,800

provided to the scientists to be

17

00:00:50,630 --> 00:00:49,039

analyzed for their experiments the crew

18

00:00:53,590 --> 00:00:50,640

members of the shuttle had a little

19

00:00:55,189 --> 00:00:53,600

off-duty time to end their day and then

20

00:00:56,869 --> 00:00:55,199

they gathered together with all of their

21

00:00:59,270 --> 00:00:56,879

station crewmates in the destiny

22

00:01:00,549 --> 00:00:59,280

laboratory for a farewell ceremony all

23

00:01:02,069 --> 00:01:00,559

right well welcome aboard the space

24

00:01:04,310 --> 00:01:02,079

station um

25

00:01:06,149 --> 00:01:04,320

we've spent how many days here

26

00:01:07,429 --> 00:01:06,159

i don't know seven days eight days

27

00:01:09,510 --> 00:01:07,439

something like that

28

00:01:11,590 --> 00:01:09,520

uh we delivered the last pressurized

29

00:01:13,830 --> 00:01:11,600

module we delivered the elc-4 we did a

30

00:01:15,590 --> 00:01:13,840

whole bunch of transfer and we outfitted

31

00:01:17,190 --> 00:01:15,600

the pmm as best we could with the time

32

00:01:18,870 --> 00:01:17,200

available and uh

33

00:01:20,149 --> 00:01:18,880

scott it was a pleasure to be up here we

34

00:01:21,429 --> 00:01:20,159

appreciate your hospitality we

35

00:01:23,749 --> 00:01:21,439

appreciate you putting up with us

36

00:01:26,469 --> 00:01:23,759

knocking your stuff off the walls and

37

00:01:29,030 --> 00:01:26,479

generally trashing your station doubling

38

00:01:30,789 --> 00:01:29,040

doubling the number of people and

39

00:01:32,149 --> 00:01:30,799

we appreciate you guys letting us float

40

00:01:34,710 --> 00:01:32,159

down to the service module and get in

41

00:01:36,390 --> 00:01:34,720

your way as well and

42

00:01:39,190 --> 00:01:36,400

on behalf of the crew we had a great

43

00:01:41,109 --> 00:01:39,200

time we appreciate the hospitality and

44

00:01:42,950 --> 00:01:41,119

enjoyed the crew meals together and uh

45

00:01:47,030 --> 00:01:42,960

and we're going to miss you guys and so

46

00:01:52,069 --> 00:01:49,350

i'd like to say that

47

00:01:54,230 --> 00:01:52,079

it was a very successful time on board

48

00:01:56,469 --> 00:01:54,240

with you guys we really enjoyed uh

49

00:01:57,990 --> 00:01:56,479

having guests this is the first group of

50

00:02:01,590 --> 00:01:58,000

guests i've had in

51  
00:02:04,469 --> 00:02:01,600  
about 150 days since i've been up here

52  
00:02:05,590 --> 00:02:04,479  
and uh we're going to miss you but

53  
00:02:08,869 --> 00:02:05,600  
most of all we're going to miss

54  
00:02:09,669 --> 00:02:08,879  
discovery and discovery has been a great

55  
00:02:11,589 --> 00:02:09,679  
ship

56  
00:02:14,390 --> 00:02:11,599  
and uh has really supported the

57  
00:02:15,750 --> 00:02:14,400  
international space station more so than

58  
00:02:18,309 --> 00:02:15,760  
i think any other

59  
00:02:21,190 --> 00:02:18,319  
any other space shuttle and uh

60  
00:02:23,510 --> 00:02:21,200  
we wish her uh fair winds and following

61  
00:02:25,990 --> 00:02:23,520  
seas thank you

62  
00:02:28,550 --> 00:02:26,000  
the hatches were closed between the two

63  
00:02:32,710 --> 00:02:28,560

vehicles after being open for seven days

64

00:02:35,270 --> 00:02:32,720

23 hours and 55 minutes the two crews

65

00:02:37,030 --> 00:02:35,280

moving forward to flight day 12 on orbit

66

00:02:38,710 --> 00:02:37,040

which will feature the undocking of

67

00:02:41,030 --> 00:02:38,720

discovery from the international space
