

1
00:00:09,910 --> 00:00:07,430
from the processing team of discovery to

2
00:00:11,110 --> 00:00:09,920
the crew of discovery enjoy the ride

3
00:00:13,190 --> 00:00:11,120
thanks for all the work you did getting

4
00:00:16,470 --> 00:00:13,200
this ready to go and uh

5
00:00:18,070 --> 00:00:16,480
appreciate all your work

6
00:00:19,750 --> 00:00:18,080
and for those watching get ready to

7
00:00:21,590 --> 00:00:19,760
witness the majesty and the power of

8
00:00:23,670 --> 00:00:21,600
discovery as she lifts off one final

9
00:00:24,550 --> 00:00:23,680
time

10
00:00:25,910 --> 00:00:24,560
two

11
00:00:28,470 --> 00:00:25,920
one

12
00:00:31,509 --> 00:00:28,480
booster ignition and the final liftoff

13
00:00:33,510 --> 00:00:31,519

of discovery a tribute to the dedication

14

00:00:49,270 --> 00:00:33,520

hard work and pride of america's space

15

00:00:52,869 --> 00:00:50,630

you know i'm just looking out the window

16

00:00:55,510 --> 00:00:52,879

here going over the earth i'm thinking

17

00:00:57,270 --> 00:00:55,520

about how cool it is to be up here doing

18

00:00:59,750 --> 00:00:57,280

this but what's even

19

00:01:01,510 --> 00:00:59,760

more impressive to me about the whole

20

00:01:04,070 --> 00:01:01,520

spaceflight business is when you have a

21

00:01:06,789 --> 00:01:04,080

large team like we have doing something

22

00:01:09,190 --> 00:01:06,799

incredibly complex and yet we uh we pull

23

00:01:25,350 --> 00:01:09,200

it off uh successfully year after year

24

00:01:29,190 --> 00:01:27,109

that thing is a lot bigger since the

25

00:01:31,990 --> 00:01:29,200

last time i was here

26
00:01:33,429 --> 00:01:32,000
discovery station has you loud and clear

27
00:01:43,109 --> 00:01:33,439
on the big loop

28
00:01:47,990 --> 00:01:45,190
station and houston discovery is

29
00:01:50,069 --> 00:01:48,000
initiating final approach

30
00:01:58,469 --> 00:01:50,079
station and east and discovery has

31
00:01:58,479 --> 00:02:08,389
so

32
00:02:12,790 --> 00:02:10,150
i just wanted to thank mike for being

33
00:02:14,390 --> 00:02:12,800
the voice of eelc4 up here today and uh

34
00:02:17,030 --> 00:02:14,400
let you guys know how much we appreciate

35
00:02:19,589 --> 00:02:17,040
your help and that it was uh really very

36
00:02:21,350 --> 00:02:19,599
impressive working from the cupola

37
00:02:23,270 --> 00:02:21,360
and uh watching how these arms work

38
00:02:31,350 --> 00:02:23,280

together and getting elc birth to the

39

00:02:35,670 --> 00:02:33,430

well discovery is a really historic

40

00:02:37,589 --> 00:02:35,680

vehicle a lot of ways it took its name

41

00:02:39,270 --> 00:02:37,599

from a lot of ships of exploration over

42

00:02:40,790 --> 00:02:39,280

many centuries and it comes with a

43

00:02:42,390 --> 00:02:40,800

pretty rich heritage and it's really

44

00:02:44,070 --> 00:02:42,400

lived up to that

45

00:02:46,150 --> 00:02:44,080

she just performed magnificently getting

46

00:02:48,630 --> 00:02:46,160

us up here so i think we're all going to

47

00:02:50,150 --> 00:02:48,640

be kind of sad to see it go

48

00:02:51,830 --> 00:02:50,160

and we're going to remember discovery

49

00:02:53,589 --> 00:02:51,840

and all the shuttle fleet i think is the

50

00:03:01,350 --> 00:02:53,599

most capable vehicles that have ever

51
00:03:04,990 --> 00:03:03,509
so here we have the alvin drew and steve

52
00:03:07,110 --> 00:03:05,000
bowen

53
00:03:08,869 --> 00:03:07,120
uncharacteristically speechless and our

54
00:03:10,949 --> 00:03:08,879
commander has given them all sorts of

55
00:03:12,470 --> 00:03:10,959
words of encouragement and also told

56
00:03:16,149 --> 00:03:12,480
that if they do a bad job he won't let

57
00:03:21,589 --> 00:03:17,110
okay

58
00:03:26,149 --> 00:03:23,509
feeling good out there you're standing

59
00:03:27,750 --> 00:03:26,159
and stretching you're not gonna wake up

60
00:03:44,789 --> 00:03:27,760
that coffee ought to be kicking in any

61
00:03:44,799 --> 00:03:51,190
and then we'll be ready for

62
00:03:55,589 --> 00:03:52,710
and after the whole team there great

63
00:03:57,830 --> 00:03:55,599

work completing a textbook eba

64

00:03:59,670 --> 00:03:57,840

and what are you doing today well today

65

00:04:02,229 --> 00:03:59,680

mike and i are going to remove or remove

66

00:04:03,750 --> 00:04:02,239

the pmm which is the big module that's

67

00:04:04,869 --> 00:04:03,760

currently in the payload bay of

68

00:04:06,470 --> 00:04:04,879

discovery

69

00:04:07,830 --> 00:04:06,480

over to the station and that will

70

00:04:31,830 --> 00:04:07,840

complete

71

00:04:31,840 --> 00:05:04,629

you guys ready

72

00:05:04,639 --> 00:05:16,629

is off the frame in my hand

73

00:05:19,830 --> 00:05:17,990

we're doing really well they've been

74

00:05:21,029 --> 00:05:19,840

following instructions exceptionally

75

00:05:36,469 --> 00:05:21,039

well today

76

00:05:39,510 --> 00:05:38,150

scott it was a pleasure to be up here we

77

00:05:40,790 --> 00:05:39,520

appreciate your hospitality we

78

00:05:43,029 --> 00:05:40,800

appreciate you putting up with us

79

00:05:45,110 --> 00:05:43,039

knocking your stuff off the walls and

80

00:05:46,950 --> 00:05:45,120

generally trashing your station

81

00:05:49,110 --> 00:05:46,960

and we're gonna miss you guys and so

82

00:05:51,189 --> 00:05:49,120

thanks thanks for everything

83

00:05:53,670 --> 00:05:51,199

we're gonna miss you but

84

00:05:55,110 --> 00:05:53,680

most of all we're gonna miss discovery
