

1
00:00:39,760 --> 00:00:46,069
it looks like a robonaut is not here

2
00:00:46,079 --> 00:00:51,110
that's what we're afraid of

3
00:00:51,120 --> 00:00:58,630
it's like unearthing a mummy

4
00:01:01,590 --> 00:01:00,790
well at least the mummy would be here we

5
00:01:03,510 --> 00:01:01,600
just

6
00:01:09,830 --> 00:01:03,520
have an empty

7
00:01:09,840 --> 00:01:24,070
and so um

8
00:01:34,230 --> 00:01:25,910
you might want to come on board on the

9
00:01:34,240 --> 00:01:38,950
we'll put that in work

10
00:01:48,069 --> 00:01:41,030
and station huntsville is somebody

11
00:01:56,469 --> 00:01:50,069
well nobody's walking but we have

12
00:01:56,479 --> 00:02:03,190
you guys are bad

13
00:02:03,200 --> 00:02:15,030

and uh we're on o2 camera

14

00:02:15,040 --> 00:02:32,390

do you see what we see

15

00:02:32,400 --> 00:02:38,470

out of the box

16

00:02:38,480 --> 00:02:44,470

totally awesome

17

00:02:44,480 --> 00:03:20,390

thanks for that guys

18

00:03:23,830 --> 00:03:22,229

i'd like to introduce you to the newest

19

00:03:25,750 --> 00:03:23,840

member of our crew

20

00:03:27,990 --> 00:03:25,760

i'm not sure if he's expedition 26 or

21

00:03:30,550 --> 00:03:28,000

expedition 27 but he's definitely on

22

00:03:32,229 --> 00:03:30,560

board this is robonaut 2

23

00:03:35,190 --> 00:03:32,239

and i'd like to take this opportunity to

24

00:03:37,589 --> 00:03:35,200

thank all the engineers that uh got this

25

00:03:39,110 --> 00:03:37,599

guy ready to fly in quite a hurry i

26

00:03:40,550 --> 00:03:39,120

think just a little while ago he didn't

27

00:03:42,229 --> 00:03:40,560

even know he'd be on the space station

28

00:03:44,229 --> 00:03:42,239

and now he's up here with us and we're

29

00:03:45,910 --> 00:03:44,239

going to see what robonaut can do so

30

00:03:47,190 --> 00:03:45,920

thanks to everybody who worked so hard

31

00:04:00,710 --> 00:03:47,200

to get him ready we know it was a lot of

32

00:04:05,350 --> 00:04:02,470

and station huntsville of course the

33

00:04:07,110 --> 00:04:05,360

robonaut team is cheering here uh

34

00:04:09,030 --> 00:04:07,120

awesome job

35

00:04:12,949 --> 00:04:09,040

and are you sure this guy isn't related

36

00:04:18,469 --> 00:04:14,470

oh you know since we found him already

37

00:04:21,270 --> 00:04:19,670

since we already found him uh

38

00:04:24,150 --> 00:04:21,280

controlling the space station we're sure

39

00:04:26,070 --> 00:04:24,160

that he is related to how but we'll see

40

00:04:28,950 --> 00:04:26,080

it's actually a fascinating partnership

41

00:04:31,430 --> 00:04:28,960

you know nasa and gm in terms of the

42

00:04:33,110 --> 00:04:31,440

robotics involved in uh in robonaut and

43

00:04:35,189 --> 00:04:33,120

we're really looking forward to

44

00:04:37,030 --> 00:04:35,199

understanding how he works and how he

45

00:04:38,550 --> 00:04:37,040

can work with us it's a real good

46

00:04:40,390 --> 00:04:38,560

opportunity to

47

00:04:52,070 --> 00:04:40,400

help understand the interface between

48

00:04:56,950 --> 00:04:54,469

in station houston we copy all thanks

49

00:04:59,270 --> 00:04:56,960

for those words katie but uh how can we

50

00:05:07,350 --> 00:04:59,280

never see dima and robo not in the same

51
00:05:13,189 --> 00:05:09,830
houston we've been wondering exactly the
