international space station

3  
00:00:13,589 --> 00:00:10,880  
i'm cosmos of the russian federal space

4  
00:00:17,430 --> 00:00:13,599  
agency and the exhibition 27 commander

flight engineer from roscosmos

11  
00:00:42,150 --> 00:00:39,990  
on the behalf of space station crews

12  
00:00:43,670 --> 00:00:42,160  
past and present it's my privilege to

13  
00:00:44,950 --> 00:00:43,680

mark canada arms

14

00:00:47,029 --> 00:00:44,960

2's

15

00:00:49,350 --> 00:00:47,039

10th anniversary and its contribution to

16

00:00:50,869 --> 00:00:49,360

space station assembly without it we

17

00:00:55,750 --> 00:00:50,879

would not have built this magnificent

18

00:00:59,830 --> 00:00:58,790

as a long-time members of the robotics

19

00:01:03,910 --> 00:00:59,840

team

20

00:01:04,869 --> 00:01:03,920

getting to operate canadarm2 to grapple

21

00:01:09,270 --> 00:01:04,879

birth

22

00:01:12,149 --> 00:01:09,280

relocate and release japan's htv-2

23

00:01:14,550 --> 00:01:12,159

were trilling moments for and i

24

00:01:17,350 --> 00:01:14,560

we felt like we represented all the

25

00:01:22,310 --> 00:01:17,360

dedicated people working behind the

26  
00:01:25,190 --> 00:01:23,749  
when you approach the space station for

27  
00:01:26,870 --> 00:01:25,200  
the first time you're really filled with

28  
00:01:28,469 --> 00:01:26,880  
a sense of eyes you behold this

29  
00:01:30,950 --> 00:01:28,479  
incredible spaceship

30  
00:01:32,950 --> 00:01:30,960  
assembled by canadarm2 and you feel a

31  
00:01:34,950 --> 00:01:32,960  
strong sense of how nations working hand

32  
00:01:39,429 --> 00:01:34,960  
in hand or should i say arm in arm can

33  
00:01:43,510 --> 00:01:41,670  
on behalf of our space station crew and

34  
00:01:45,030 --> 00:01:43,520  
also those who have yet to live and work

35  
00:01:47,270 --> 00:01:45,040  
here from around the world

36  
00:01:50,069 --> 00:01:47,280  
congratulations to all the teams who

37  
00:01:52,550 --> 00:01:50,079  
helped design build and now operate this

38  
00:01:54,389 --> 00:01:52,560

magnificent robotic system happy
