between the vatican international space

28

00:01:39,510 --> 00:01:36,400

00:02:21,030 --> 00:02:14,560

station crew and then uh

41

00:02:24,790 --> 00:02:23,510

my name is kandaratif i'm uh

42

00:02:27,350 --> 00:02:24,800

commander of the international space

43

00:02:31,509 --> 00:02:27,360

station along with my crew here

44

00:02:34,869 --> 00:02:31,519

russian cosmonaut and ron garan nasa

52
00:02:56,790 --> 00:02:54,070
welcome aboard the space station your

53
00:02:57,990 --> 00:02:56,800
holiness uh to my left is roberto

54
00:02:59,830 --> 00:02:58,000
vittori

55
00:03:02,229 --> 00:02:59,840
uh he's an italian astronaut on a

56
00:03:05,750 --> 00:03:02,239
mission for the european space agency

57
00:03:07,190 --> 00:03:05,760
right behind him is endeavour's pilot uh

58
00:03:09,430 --> 00:03:07,200
greg johnson

59
00:03:10,630 --> 00:03:09,440
and uh greg chatatov one of our mission

60
00:03:12,390 --> 00:03:10,640
specialists who just did his first

61
00:03:14,470 --> 00:03:12,400
spacewalk yesterday

62
00:03:16,070 --> 00:03:14,480
and then drew feustel who's our lead

63
00:03:18,149 --> 00:03:16,080

spacewalker for this mission who's going

64

00:03:20,229 --> 00:03:18,159

to do uh three walks

65

00:03:23,190 --> 00:03:20,239

and next to drew

66

00:03:25,509 --> 00:03:23,200

is mike fink who after this mission will

67

00:03:26,470 --> 00:03:25,519

be the american with the most time and

68

00:03:28,390 --> 00:03:26,480

space

69

00:03:29,910 --> 00:03:28,400

and i won't be approaching what the

70

00:03:31,670 --> 00:03:29,920

russians have but

71

00:03:40,949 --> 00:03:31,680

a lot of days in space

72

00:03:45,270 --> 00:03:42,630

thank you thank you very much for your

73

00:03:48,309 --> 00:03:45,280

introduction then i'll give the floor to

74

00:03:50,229 --> 00:03:48,319

his holiness who would like to say a few

75

00:03:53,110 --> 00:03:50,239

words for all of us

76
00:03:55,670 --> 00:03:53,120
and maybe some question for some of you

77
00:03:57,750 --> 00:03:55,680
thank you over

78
00:04:00,229 --> 00:03:57,760
dear astronauts i'm very happy to have

79
00:04:02,550 --> 00:04:00,239
this extraordinary opportunity to

80
00:04:04,710 --> 00:04:02,560
converse with you during your mission

81
00:04:07,429 --> 00:04:04,720
and especially grateful to be able to

82
00:04:09,350 --> 00:04:07,439
speak to so many of you as both crews

83
00:04:10,869 --> 00:04:09,360
are present on this situation of this

84
00:04:13,270 --> 00:04:10,879
time

85
00:04:15,830 --> 00:04:13,280
humanity is experiencing a period of

86
00:04:17,830 --> 00:04:15,840
extremely rapid progress in the fields

87
00:04:20,870 --> 00:04:17,840
of scientific knowledge

88
00:04:23,670 --> 00:04:20,880

and technical applications in a sense

89

00:04:26,310 --> 00:04:23,680

you are our representatives spare

90

00:04:28,469 --> 00:04:26,320

healing humanities exploration

91

00:04:29,590 --> 00:04:28,479

of new spaces and possibilities for our

92

00:04:32,790 --> 00:04:29,600

future

93

00:04:34,950 --> 00:04:32,800

going beyond the limitations of our evil

94

00:04:37,350 --> 00:04:34,960

everyday existence

95

00:04:39,749 --> 00:04:37,360

we all admire your courage as well as a

96

00:04:42,310 --> 00:04:39,759

discipline and commitment with which you

97

00:04:44,390 --> 00:04:42,320

prepared yourself for this mission you

98

00:04:46,629 --> 00:04:44,400

are convinced you are inspired by noble

99

00:04:49,110 --> 00:04:46,639

ideals and that you intend placing the

100

00:04:51,830 --> 00:04:49,120

results of your research and endeavors

101
00:04:53,590 --> 00:04:51,840
at the disposal of all humanity and for

102
00:04:55,909 --> 00:04:53,600
the common good

103
00:04:57,909 --> 00:04:55,919
this conversation gives me the chance to

104
00:04:59,670 --> 00:04:57,919
express my own admiration and

105
00:05:01,670 --> 00:04:59,680
appreciation to you

106
00:05:04,070 --> 00:05:01,680
and also collaborate in making your

107
00:05:06,550 --> 00:05:04,080
mission possible and that my heartfelt

108
00:05:09,510 --> 00:05:06,560
encouragement to bring it to a safe and

109
00:05:11,670 --> 00:05:09,520
successful conclusion

110
00:05:14,469 --> 00:05:11,680
but this is a conversation so i must not

111
00:05:16,390 --> 00:05:14,479
be the only one doing the talking

112
00:05:18,310 --> 00:05:16,400
i'm very curious to hear you tell me

113
00:05:19,749 --> 00:05:18,320

about your experiences and your

114

00:05:22,870 --> 00:05:19,759

reflections

115

00:05:25,749 --> 00:05:22,880

if you don't mind i would like to ask

116

00:05:28,710 --> 00:05:25,759

to ask you a few questions

117

00:05:31,029 --> 00:05:28,720

first question from the space situation

118

00:05:33,110 --> 00:05:31,039

have a very different view of the earth

119

00:05:35,830 --> 00:05:33,120

you fly over different continents and

120

00:05:38,629 --> 00:05:35,840

nations several times a day

121

00:05:41,110 --> 00:05:38,639

i think it must be obvious to you how we

122

00:05:43,670 --> 00:05:41,120

all live together on one earth

123

00:05:45,909 --> 00:05:43,680

and how absurd it is that we fight and

124

00:05:47,909 --> 00:05:45,919

kill each one

125

00:05:50,469 --> 00:05:47,919

i know that mark kelly's wife was a

126

00:05:53,270 --> 00:05:50,479

victim of a serious attack and i hope

127

00:05:54,790 --> 00:05:53,280

her health continues to improve

128

00:05:56,870 --> 00:05:54,800

when you are contemplating the earth

129

00:05:59,430 --> 00:05:56,880

from upstairs

130

00:06:01,350 --> 00:05:59,440

so you ever wonder about survey

131

00:06:04,150 --> 00:06:01,360

nations and people live together down

132

00:06:10,390 --> 00:06:04,160

here about how science can contribute to

133

00:06:14,150 --> 00:06:13,430

well thank you for uh

134

00:06:16,070 --> 00:06:14,160

the

135

00:06:18,550 --> 00:06:16,080

kind words your holiness and thank you

136

00:06:19,350 --> 00:06:18,560

for mentioning my wife gabby

137

00:06:22,230 --> 00:06:19,360

um

138

00:06:23,590 --> 00:06:22,240

it's a very good question we we fly over

139

00:06:25,670 --> 00:06:23,600

most of the world and you don't see

140

00:06:26,870 --> 00:06:25,680

borders uh but at the same time we

141

00:06:28,870 --> 00:06:26,880

realize

142

00:06:30,230 --> 00:06:28,880

that that people fight with each other

143

00:06:32,150 --> 00:06:30,240

and there's a lot of violence in this

144

00:06:34,550 --> 00:06:32,160

world and it's really an unfortunate

145

00:06:36,150 --> 00:06:34,560

thing usually

146

00:06:37,670 --> 00:06:36,160

people fight over many different things

147

00:06:41,430 --> 00:06:37,680

as we're seeing in the middle east right

148

00:06:43,670 --> 00:06:41,440

now it's somewhat for democracy in

149

00:06:47,110 --> 00:06:43,680

certain areas but usually people fight

150

00:06:48,790 --> 00:06:47,120

for resources uh and it's interesting in

151
00:06:50,469 --> 00:06:48,800
space

152
00:06:53,510 --> 00:06:50,479
you know on earth

153
00:06:56,390 --> 00:06:53,520
often people fight for energy

154
00:06:58,550 --> 00:06:56,400
uh in space we use solar power and we

155
00:07:00,950 --> 00:06:58,560
have fuel cells on the space shuttle but

156
00:07:02,870 --> 00:07:00,960
it's on the space station

157
00:07:05,430 --> 00:07:02,880
it it's um

158
00:07:07,189 --> 00:07:05,440
you know the science and the technology

159
00:07:09,830 --> 00:07:07,199
that we put into the space station to

160
00:07:11,670 --> 00:07:09,840
develop a solar power capability gives

161
00:07:14,550 --> 00:07:11,680
us pretty much unlimited amount of

162
00:07:17,029 --> 00:07:14,560
energy and if those technologies could

163
00:07:27,990 --> 00:07:17,039

be adapted more on earth we could

164

00:07:31,270 --> 00:07:29,350

second question

165

00:07:32,870 --> 00:07:31,280

one of the teams you often return to in

166

00:07:35,350 --> 00:07:32,880

my discourses

167

00:07:37,990 --> 00:07:35,360

concerns the responsibility we all have

168

00:07:40,469 --> 00:07:38,000

towards the future of our planet

169

00:07:42,830 --> 00:07:40,479

i recall the serious risks facing the

170

00:07:45,830 --> 00:07:42,840

environment and the survival of future

171

00:07:48,390 --> 00:07:45,840

generations scientists tell us we have

172

00:07:50,869 --> 00:07:48,400

to be careful and from an ethical point

173

00:07:52,309 --> 00:07:50,879

of view we must develop our conscience

174

00:07:54,309 --> 00:07:52,319

as well

175

00:07:57,430 --> 00:07:54,319

from your extraordinary observation

176

00:07:59,830 --> 00:07:57,440

point how to use this situation on earth

177

00:08:07,670 --> 00:07:59,840

do you see science or phenomena to which

178

00:08:11,029 --> 00:08:09,589

well your holiness it's a it's a great

179

00:08:13,189 --> 00:08:11,039

honor to speak with you and you're right

180

00:08:14,790 --> 00:08:13,199

it really is an extraordinary vantage

181

00:08:17,029 --> 00:08:14,800

point we have up here

182

00:08:18,950 --> 00:08:17,039

on the one hand we could see how

183

00:08:20,629 --> 00:08:18,960

indescribably beautiful the planet that

184

00:08:23,110 --> 00:08:20,639

we have been given is but on the other

185

00:08:24,869 --> 00:08:23,120

hand we can really clearly see how

186

00:08:25,589 --> 00:08:24,879

fragile it is

187

00:08:27,110 --> 00:08:25,599

just

188

00:08:28,869 --> 00:08:27,120

the atmosphere for instance the

189

00:08:30,070 --> 00:08:28,879

atmosphere when viewed from space is

190

00:08:35,110 --> 00:08:30,080

paper-thin

191

00:08:36,949 --> 00:08:35,120

is all that separates every living thing

192

00:08:39,430 --> 00:08:36,959

uh from the vacuum of space and all that

193

00:08:41,430 --> 00:08:39,440

protects us is really a sobering thought

194

00:08:44,630 --> 00:08:41,440

and you know it's it seems to us that

195

00:08:46,630 --> 00:08:44,640

it's it's just incredible to to view the

196

00:08:48,790 --> 00:08:46,640

earth hanging in the blackness of space

197

00:08:50,550 --> 00:08:48,800

and to think that you know we are all on

198

00:08:52,070 --> 00:08:50,560

this together riding through this

199

00:08:54,790 --> 00:08:52,080

beautiful fragile oasis through the

200

00:08:56,550 --> 00:08:54,800

universe and it really fills us with a

201
00:08:58,710 --> 00:08:56,560
lot of hope to think that you know all

202
00:09:00,790 --> 00:08:58,720
of us on board this incredible orbiting

203
00:09:03,269 --> 00:09:00,800
space station that was built by the many

204
00:09:05,030 --> 00:09:03,279
nations of our international partnership

205
00:09:08,389 --> 00:09:05,040
you know to accomplish this tremendous

206
00:09:10,310 --> 00:09:08,399
feat in orbit i think you know that just

207
00:09:11,990 --> 00:09:10,320
shows that by working together and and

208
00:09:13,509 --> 00:09:12,000
by cooperating you know we could

209
00:09:16,070 --> 00:09:13,519
overcome many of the problems that face

210
00:09:17,509 --> 00:09:16,080
our planet we can uh solve many of the

211
00:09:19,030 --> 00:09:17,519
challenges that face the inhabitants of

212
00:09:20,949 --> 00:09:19,040
our planet it really is a wonderful

213
00:09:22,470 --> 00:09:20,959

place to live and work and it's a

214

00:09:31,430 --> 00:09:22,480

wonderful place to view our beautiful

215

00:09:37,269 --> 00:09:34,070

my third question the experience you are

216

00:09:39,990 --> 00:09:37,279

having right now is both extraordinary

217

00:09:42,230 --> 00:09:40,000

and very important even if you must come

218

00:09:43,670 --> 00:09:42,240

back down to earth like all the rest of

219

00:09:45,430 --> 00:09:43,680

us

220

00:09:47,910 --> 00:09:45,440

when you do return you will be much

221

00:09:50,870 --> 00:09:47,920

admired and treated like heroes who

222

00:09:53,670 --> 00:09:50,880

speak and act with authority you will be

223

00:09:56,150 --> 00:09:53,680

asked to talk about your experiences

224

00:09:58,470 --> 00:09:56,160

what will be the most important messages

225

00:10:00,389 --> 00:09:58,480

you would like to convey to young people

226

00:10:03,750 --> 00:10:00,399

especially who will live in a world

227

00:10:10,069 --> 00:10:03,760

strongly influenced by your experiences

228

00:10:14,710 --> 00:10:11,509

your holiness

229

00:10:16,949 --> 00:10:14,720

as my colleagues have us have indicated

230

00:10:19,269 --> 00:10:16,959

we can look down and see our beautiful

231

00:10:21,110 --> 00:10:19,279

planet earth that god has made and it is

232

00:10:22,870 --> 00:10:21,120

the most beautiful planet in the whole

233

00:10:25,030 --> 00:10:22,880

solar system

234

00:10:26,790 --> 00:10:25,040

however if we look up we can see the

235

00:10:28,870 --> 00:10:26,800

rest of the universe and the rest of the

236

00:10:30,069 --> 00:10:28,880

universe is out there for us to go

237

00:10:31,829 --> 00:10:30,079

explore

238

00:10:34,310 --> 00:10:31,839

and the international space station is

239

00:10:35,990 --> 00:10:34,320

just one symbol one example of what

240

00:10:39,110 --> 00:10:36,000

human beings can do when we work

241

00:10:41,829 --> 00:10:39,120

together constructively so our message i

242

00:10:44,150 --> 00:10:41,839

think uh one of our many messages but i

243

00:10:46,710 --> 00:10:44,160

think one of our most important messages

244

00:10:48,630 --> 00:10:46,720

is to let the children of the planet

245

00:10:50,790 --> 00:10:48,640

know the young people know that there's

246

00:10:52,710 --> 00:10:50,800

a whole universe for us to go explore

247

00:11:01,990 --> 00:10:52,720

and when we do it together there's

248

00:11:06,150 --> 00:11:03,750

my first question

249

00:11:07,990 --> 00:11:06,160

space exploration is a fascinating

250

00:11:10,230 --> 00:11:08,000

scientific adventure

251
00:11:13,430 --> 00:11:10,240
i know that you have been installing new

252
00:11:15,590 --> 00:11:13,440
equipment to further scientific research

253
00:11:17,190 --> 00:11:15,600
and the study of radiation coming from

254
00:11:18,949 --> 00:11:17,200
outer space

255
00:11:20,470 --> 00:11:18,959
but i think it is also an advantage of

256
00:11:22,710 --> 00:11:20,480
the human spirit

257
00:11:25,110 --> 00:11:22,720
of powerful stimulus to reflect on the

258
00:11:27,590 --> 00:11:25,120
origins and on the destiny of the

259
00:11:29,829 --> 00:11:27,600
universe and humanity

260
00:11:30,790 --> 00:11:29,839
believers often look up at the limitless

261
00:11:33,750 --> 00:11:30,800
heavens

262
00:11:35,430 --> 00:11:33,760
and meditating on the creature of it all

263
00:11:36,870 --> 00:11:35,440

they are struck by the mystery of his

264

00:11:39,829 --> 00:11:36,880

greatness

265

00:11:41,670 --> 00:11:39,839

satisfies a medal i gave robert as a

266

00:11:42,790 --> 00:11:41,680

sign of my own participation in your

267

00:11:45,190 --> 00:11:42,800

mission

268

00:11:46,949 --> 00:11:45,200

represents the creation of man as

269

00:11:48,069 --> 00:11:46,959

pentecost michelangelo's assistant

270

00:11:49,829 --> 00:11:48,079

chapel

271

00:11:52,470 --> 00:11:49,839

in the midst of your intense work and

272

00:11:53,590 --> 00:11:52,480

research do you ever stop and reflect

273

00:11:55,269 --> 00:11:53,600

like this

274

00:11:56,470 --> 00:11:55,279

perhaps even to their prayer to the

275

00:11:58,550 --> 00:11:56,480

creature

276

00:12:00,069 --> 00:11:58,560

or will it be easier for you to think

277

00:12:09,990 --> 00:12:00,079

about these things once you have

278

00:12:12,790 --> 00:12:11,670

oldness

279

00:12:15,110 --> 00:12:12,800

i

280

00:12:16,790 --> 00:12:15,120

do

281

00:12:17,910 --> 00:12:16,800

living on the international space

282

00:12:20,949 --> 00:12:17,920

station

283

00:12:22,389 --> 00:12:20,959

working as an astronaut is extremely

284

00:12:25,829 --> 00:12:22,399

intense

285

00:12:29,990 --> 00:12:25,839

but we do have an opportunity at night

286

00:12:33,430 --> 00:12:31,670

your holiness

287

00:12:36,310 --> 00:12:33,440

to live on board of the international

288

00:12:38,230 --> 00:12:36,320

space station to work as an astronaut on

289

00:12:39,910 --> 00:12:38,240

the shuttles i use of the station is

290

00:12:41,190 --> 00:12:39,920

extremely intense

291

00:12:43,990 --> 00:12:41,200

but

292

00:12:47,430 --> 00:12:44,000

we all have an opportunity when the

293

00:12:50,710 --> 00:12:47,440

nights come to look out and

294

00:12:54,790 --> 00:12:50,720

more to look down on earth

295

00:12:57,829 --> 00:12:54,800

our planet the blue planet is beautiful

296

00:12:59,590 --> 00:12:57,839

blue is the color of our planet blue is

297

00:13:02,150 --> 00:12:59,600

the color of the sky

298

00:13:04,550 --> 00:13:02,160

blue is also the color of the italian

299

00:13:06,710 --> 00:13:04,560

air force the organization that

300

00:13:08,870 --> 00:13:06,720

gave me the opportunity to then join the

301
00:13:10,629 --> 00:13:08,880
italian space agency the european space

302
00:13:13,910 --> 00:13:10,639
agency

303
00:13:17,030 --> 00:13:13,920
when we have a moment to look down

304
00:13:19,030 --> 00:13:17,040
beauty is the three-dimensional effect

305
00:13:22,710 --> 00:13:19,040
of the beauty of the planet

306
00:13:23,829 --> 00:13:22,720
is capturing our art art is capturing my

307
00:13:25,590 --> 00:13:23,839
art

308
00:13:28,629 --> 00:13:25,600
and i do pray

309
00:13:33,030 --> 00:13:28,639
i do pray for for me

310
00:13:36,389 --> 00:13:33,040
for our families for our future

311
00:13:39,509 --> 00:13:36,399
i took with me the coin

312
00:13:44,629 --> 00:13:39,519
and i allowed this clawing to float in

313
00:13:48,949 --> 00:13:46,870

i shall thank you very much for this

314

00:13:51,990 --> 00:13:48,959

opportunity and

315

00:13:54,949 --> 00:13:52,000

i would like to allow this coin to float

316

00:13:57,590 --> 00:13:54,959

to my friend and colleague paolo

317

00:13:58,949 --> 00:13:57,600

he will make return on earth on the

318

00:14:01,910 --> 00:13:58,959

soyuz

319

00:14:04,710 --> 00:14:01,920

i brought it with me to space and it

320

00:14:15,829 --> 00:14:04,720

will take down on earth to then give

321

00:14:22,389 --> 00:14:19,990

my last question is for paulo dear paulo

322

00:14:24,550 --> 00:14:22,399

i know that a few years ago a few days

323

00:14:25,990 --> 00:14:24,560

ago your mom has left you

324

00:14:26,790 --> 00:14:26,000

and in a few days you will come back

325

00:14:35,910 --> 00:14:26,800

home

326

00:14:40,230 --> 00:14:37,509

how have you been

327

00:14:42,949 --> 00:14:40,240

living through this time of pain

328

00:14:45,509 --> 00:14:42,959

on the international space station

329

00:14:49,110 --> 00:14:45,519

do you feel isolated and alone

330

00:14:52,150 --> 00:14:49,120

or do you feel united amongst ourselves

331

00:14:56,230 --> 00:14:52,160

in a community that follows you with

332

00:14:56,240 --> 00:15:00,069

santo padre

333

00:15:05,189 --> 00:15:02,310

i felt your prayers and everyone's

334

00:15:08,389 --> 00:15:05,199

prayers arriving up here

335

00:15:09,990 --> 00:15:08,399

we're outside the world we orbit

336

00:15:11,750 --> 00:15:10,000

outside the earth

337

00:15:13,670 --> 00:15:11,760

and we have a vantage point to look at

338

00:15:14,710 --> 00:15:13,680

the earth and we feel everything around

339

00:15:17,110 --> 00:15:14,720

us

340

00:15:19,670 --> 00:15:17,120

my colleagues on board the station

341

00:15:22,310 --> 00:15:19,680

dmitry katie ron

342

00:15:24,790 --> 00:15:22,320

alexander andrei and andre

343

00:15:28,949 --> 00:15:24,800

were very close to me at this important

344

00:15:31,749 --> 00:15:28,959

time for me a very intense moment

345

00:15:33,910 --> 00:15:31,759

as well as my brothers and sisters

346

00:15:36,949 --> 00:15:33,920

my uncles my aunts

347

00:15:38,150 --> 00:15:36,959

my relatives were close to my mom in her

348

00:15:40,949 --> 00:15:38,160

last moments

349

00:15:43,749 --> 00:15:40,959

i'm very grateful for this i felt very

350

00:15:46,389 --> 00:15:43,759

far but also very close

351

00:15:50,550 --> 00:15:46,399

and the thought of feeling all of you

352

00:15:53,189 --> 00:15:50,560

near me at this time has been a great

353

00:15:55,269 --> 00:15:53,199

relief i also want to thank the

354

00:15:58,150 --> 00:15:55,279

italian and american space agencies that

355

00:16:00,230 --> 00:15:58,160

have given me the opportunity so that i

356

00:16:06,069 --> 00:16:00,240

was able to speak with her in her last

357

00:16:11,590 --> 00:16:08,550

the astronauts i thank you warmly for

358

00:16:13,110 --> 00:16:11,600

this wonderful opportunity to meet and

359

00:16:15,670 --> 00:16:13,120

dialogue with you

360

00:16:18,150 --> 00:16:15,680

you have helped me and many other people

361

00:16:20,870 --> 00:16:18,160

to reflect together on important issues

362

00:16:23,430 --> 00:16:20,880

since regards the future of humanity

363

00:16:24,870 --> 00:16:23,440

i wish you the very best for your work

364

00:16:27,670 --> 00:16:24,880

and for the success of your great

365

00:16:30,069 --> 00:16:27,680

mission at the service of science

366

00:16:33,269 --> 00:16:30,079

international collaboration authentic

367

00:16:35,350 --> 00:16:33,279

progress and for peace in the world

368

00:16:37,749 --> 00:16:35,360

i will continue to follow you in my

369

00:16:52,550 --> 00:16:37,759

thoughts and prayers and i willingly

370

00:16:56,389 --> 00:16:54,310

and we all

371

00:16:57,350 --> 00:16:56,399

would like to thank you your wholeness

372

00:17:11,590 --> 00:16:57,360

uh

373

00:17:15,829 --> 00:17:13,029

okay

374

00:17:17,590 --> 00:17:15,839

have a nice and happy continuation of

375

00:17:34,470 --> 00:17:17,600

the work you've done
