

1
00:00:13,270 --> 00:00:10,950
after four previous trips to repair and

2
00:00:14,950 --> 00:00:13,280
upgrade the hubble space telescope it

3
00:00:16,950 --> 00:00:14,960
was time for the shuttle to make one

4
00:00:20,390 --> 00:00:16,960
final service call to install new

5
00:00:23,509 --> 00:00:20,400
advanced instruments batteries gyros and

6
00:00:25,349 --> 00:00:23,519
insulation on the astronomical icon

7
00:00:27,990 --> 00:00:25,359
planets houston freeva we have a good

8
00:00:32,069 --> 00:00:28,000
lightness test in rsu 2r you have a go

9
00:00:37,590 --> 00:00:35,190
following five complex spacewalks hubble

10
00:00:39,510 --> 00:00:37,600
was left virtually brand new and ready

11
00:00:40,950 --> 00:00:39,520
for many more years of unprecedented

12
00:00:43,590 --> 00:00:40,960
science

13
00:00:45,990 --> 00:00:43,600

publishing a satellite it's about

14

00:00:47,590 --> 00:00:46,000

humanity's quest for knowledge

15

00:00:48,950 --> 00:00:47,600

it's really a sign of the great country

16

00:00:50,310 --> 00:00:48,960

that we live in that we're able to do

17

00:00:52,630 --> 00:00:50,320

things like this on a marvelous

18

00:00:54,630 --> 00:00:52,640

spaceship like space shuttle atlanta

19

00:00:55,830 --> 00:00:54,640

i want to wish hubble its own set of

20

00:00:57,990 --> 00:00:55,840

adventures
