

1
00:00:13,669 --> 00:00:09,830
april 24th 1990. good morning discovery

2
00:00:15,430 --> 00:00:13,679
you got to go for hst deploy ops

3
00:00:17,510 --> 00:00:15,440
the crew of the shuttle discovery

4
00:00:20,150 --> 00:00:17,520
prepares to deploy the hubble space

5
00:00:22,390 --> 00:00:20,160
telescope an instrument that would peer

6
00:00:24,150 --> 00:00:22,400
farther into the universe than ever

7
00:00:27,750 --> 00:00:24,160
before

8
00:00:29,189 --> 00:00:27,760
that show us about two inches starboard

9
00:00:32,069 --> 00:00:29,199
sure looks like i wanted to start

10
00:00:38,310 --> 00:00:32,079
starboard yeah i'd go ahead and do it

11
00:00:42,150 --> 00:00:40,150
you can maneuver right to the release

12
00:00:44,470 --> 00:00:42,160
attitude right now that's in the cab

13
00:00:47,830 --> 00:00:44,480

page 3-20 max go

14

00:00:50,229 --> 00:00:47,840

prs go flight eva we're go sergeant

15

00:00:51,189 --> 00:00:50,239

you're still go go

16

00:00:53,029 --> 00:00:51,199

gc

17

00:00:55,910 --> 00:00:53,039

go network go

18

00:00:58,790 --> 00:00:55,920

payloads waiting on you

19

00:01:00,470 --> 00:00:58,800

flight payloads we are no capcom we have

20

00:01:04,630 --> 00:01:00,480

a go for release

21

00:01:06,870 --> 00:01:04,640

discovery go for hubble release

22

00:01:08,149 --> 00:01:06,880

hubble's optics were flawed at the time

23

00:01:10,070 --> 00:01:08,159

it was deployed

24

00:01:12,789 --> 00:01:10,080

but other shuttle missions would fix
