

1  
00:00:08,686 --> 00:00:11,056  
Shuttle Astronaut: Physical separation Houston.

2  
00:00:11,056 --> 00:00:12,876  
MCC: Houston copies.

3  
00:00:12,876 --> 00:00:30,876  
Commentator: Undocking confirmed  
at 1:28 a.m. Central time.

4  
00:00:31,426 --> 00:00:40,806  
Atlantis ways anchor from the International  
Space Station for the last time.

5  
00:00:41,266 --> 00:00:43,796  
Twelve-and-a-half years of  
shuttle missions to build

6  
00:00:43,796 --> 00:01:01,546  
and service a million pound complex at an end.

7  
00:01:02,136 --> 00:01:05,176  
Rendezvous officer reports a  
good opening rate for Atlantis.

8  
00:01:13,396 --> 00:01:15,956  
This is sequential still video.

9  
00:01:16,746 --> 00:01:19,376  
MCC: Atlantis, station is in attitude control.

10  
00:01:19,376 --> 00:01:23,026  
Shuttle Astronaut: Atlantis copies.

11  
00:01:28,016 --> 00:01:31,596  
Thanks. Commentator: Atlantis now 30  
feet away from the docking interface

12

00:01:31,596 --> 00:01:33,086  
with the International Space Station.

13  
00:01:33,086 --> 00:01:34,746  
Everything looking good.

14  
00:01:51,006 --> 00:01:54,826  
It will take about 30 minutes or so for Atlantis

15  
00:01:54,826 --> 00:01:59,776  
to reach its station-keeping  
point 600 feet directly in front.

16  
00:01:59,776 --> 00:02:03,296  
[Bell rings] Station Astronaut:

17  
00:02:04,166 --> 00:02:07,886  
Atlantis departing the International  
Space Station for the last time.

18  
00:02:07,886 --> 00:02:14,786  
Thank you for your 12 docked missions to the ISS  
and for capping off 37 space shuttle missions

19  
00:02:14,786 --> 00:02:18,106  
to construct this incredible  
orbiting research facility.

20  
00:02:18,416 --> 00:02:19,476  
We'll miss you guys.

21  
00:02:19,866 --> 00:02:23,336  
Godspeed. Soft landing and we'll  
see you back on Earth in the Fall.

22  
00:02:23,336 --> 00:02:30,746  
Shuttle Astronaut: Hey thanks Ron, USOS lead,  
and to the station Commander Andrey Borisenko.

23

00:02:30,746 --> 00:02:34,246

We appreciate your hospitality again.

24

00:02:34,246 --> 00:02:36,206

What a generation can accomplish  
is a great thing.

25

00:02:36,556 --> 00:02:40,336

Its got a right to stand back and for just  
a moment admire and take pride in its work.

26

00:02:40,336 --> 00:02:43,516

From our unique vantage point right here perched

27

00:02:43,516 --> 00:02:47,196

above the Earth we can see the International  
Space Station is a wonderful accomplishment.

28

00:02:47,196 --> 00:02:51,796

Born at the end of the cold war, it's  
enabled many nations to speak one in space.

29

00:02:51,876 --> 00:02:56,906

As the ISS now enters a year of utilization  
we'll never forget the role the space shuttle

30

00:02:56,906 --> 00:02:57,936

played in its creation.

31

00:02:58,006 --> 00:03:02,676

Like a proud parent we anticipate great  
things to follow from the men and women

32

00:03:02,676 --> 00:03:03,926

who build, operate and live there.

33

00:03:04,756 --> 00:03:07,626

From this unique vantage point we can  
see a great thing has been accomplished.
