

1

00:00:01,046 --> 00:00:05,446

Peter Frampton: Are we linked? Is it now? Do you think it's...?

2

00:00:07,716 --> 00:00:10,096

5, 4, 3.

3

00:00:15,716 --> 00:00:24,096

[Cheering]

4

00:00:25,216 --> 00:00:30,096

Ron Garan: Hello. Hi. I was looking for the Warfield Theater in San Francisco.

5

00:00:30,096 --> 00:00:32,796

Is Peter Frampton there?

6

00:00:32,796 --> 00:00:34,036

Frampton: I'm here. I'm here.

7

00:00:34,036 --> 00:00:35,566

Garan: Hey, Peter. Hey.

8

00:00:35,566 --> 00:00:38,186

NASA astronaut Ron Garan calling you from on board the International Space Station.

9

00:00:38,186 --> 00:00:43,286

Hey, I called last week, and you didn't pick up your phone. What happened there?

10

00:00:43,286 --> 00:00:44,876

What was the deal?

11

00:00:44,876 --> 00:00:48,736

Frampton: Well, I was flying, and they tell you to turn your phones off,

12

00:00:48,736 --> 00:00:51,736

so it went straight to voicemail.
I missed my only call from space. I'm sorry.

13
00:00:51,736 --> 00:00:54,566
Ron, forgive me, please.

14
00:00:54,566 --> 00:00:55,436
Garan: Well, thanks.

15
00:00:55,436 --> 00:01:00,396
You know, I've been listening to your
music up here, including, I brought the CD,

16
00:01:00,396 --> 00:01:04,496
"Frampton Comes Alive," so
it's [inaudible] to listen

17
00:01:04,496 --> 00:01:06,546
to your music while looking
at our beautiful Earth.

18
00:01:06,546 --> 00:01:11,256
Frampton: Well, I'm honored that you'd take
my music up there and we're big fans of NASA

19
00:01:11,256 --> 00:01:14,586
and we want the space program to continue!

20
00:01:14,586 --> 00:01:18,036
[Cheering]

21
00:01:18,586 --> 00:01:20,036
Garan: Well, you're right.

22
00:01:20,036 --> 00:01:23,546
We have actually had a continuous human presence

23
00:01:23,546 --> 00:01:28,736
on board the International Space

Station for over the last 10 years.

24

00:01:28,736 --> 00:01:32,396

And over the course of that time,
we've conducted over 600 experiments

25

00:01:32,396 --> 00:01:37,316

on board the International Space Station
which not only will be a stepping stone

26

00:01:37,316 --> 00:01:41,776

to explore the rest of the solar system
but also will help improve life on Earth.

27

00:01:41,776 --> 00:01:46,526

For instance, we have experiments looking
at designing new materials, new medicine,

28

00:01:46,526 --> 00:01:51,506

ways to grow better crops, ways to
provide clean water, clean energy,

29

00:01:51,506 --> 00:01:55,416

so there's really been an
amazing investment in our future.

30

00:01:55,416 --> 00:01:59,886

Frampton: Well, you've got a
website, "fragileoasis dot org."

31

00:01:59,886 --> 00:02:02,776

Can you tell everybody about
that, what we can do down here?

32

00:02:02,776 --> 00:02:07,056

Garan: Well, thanks for mentioning that.

33

00:02:07,056 --> 00:02:09,356

You know, I've been up here for four months now.

34

00:02:09,356 --> 00:02:12,826

I've got a little bit less than two months to go, and I've been up here

35

00:02:12,826 --> 00:02:15,756

with five other colleagues from four other nations.

36

00:02:15,756 --> 00:02:22,536

And, you know, one of the objectives of our mission is to use this orb perspective,

37

00:02:22,536 --> 00:02:25,796

to use this view of the planet that we have up here to hopefully inspire people

38

00:02:25,796 --> 00:02:29,896

to make a difference and improve life on the planet.

39

00:02:29,896 --> 00:02:34,426

You know, when we look down at the Earth, we just see this beautiful fragile oasis that...

40

00:02:34,426 --> 00:02:38,736

you know, we obviously can't see any borders from space, and it looks very peaceful.

41

00:02:38,736 --> 00:02:44,916

It looks very beautiful, and so we just want to try and share that with people as best we can.

42

00:02:44,916 --> 00:02:46,226

Frampton: Well, that's amazing. Thank you.

43

00:02:46,226 --> 00:02:50,396

Thank you, Ron, and thank you, NASA for making this all possible,

44

00:02:50,396 --> 00:02:51,726
and thank you for everything you do.

45

00:02:51,726 --> 00:02:55,226
I just want to make sure that when
you get your feet back on the ground,

46

00:02:55,226 --> 00:02:58,146
we could maybe go for some Earth coffee.

47

00:02:58,146 --> 00:03:01,256
What do you think about maybe Starbucks or... Starbucks!

48

00:03:01,526 --> 00:03:06,036
Garan: Thanks Peter. Hey, any chance that you could
play "Float" for us right now?

49

00:03:06,036 --> 00:03:07,866
Is that possible?

50

00:03:07,866 --> 00:03:11,966
Because I think that'd be pretty cool if we
could listen to that while we're floating

51

00:03:11,966 --> 00:03:13,966
up here on the International Space Station.

52

00:03:13,966 --> 00:03:16,516
You know, like I said, we've
got this beautiful view up here.

53

00:03:16,516 --> 00:03:18,516
Any chance we could show some
of our pictures that we've taken

54

00:03:18,516 --> 00:03:22,246
over the last four months
that we've been up here? [inaudible]

55

00:03:22,246 --> 00:03:24,816

Frampton: Absolutely!

56

00:03:24,816 --> 00:03:26,326

[Cheering]

57

00:03:26,326 --> 00:03:29,326

Garan: Thanks, Peter.[inaudible] It's been really good talking to you.

58

00:03:29,326 --> 00:03:31,156

Hi to everybody in San Francisco.

59

00:03:31,156 --> 00:03:39,486

[inaudible] So, take care.

60

00:03:39,486 --> 00:03:41,656

So long from the International Space Station.

61

00:03:41,656 --> 00:03:43,136

Frampton: Bye, Ron! Bye, Ron!

62

00:03:43,136 --> 00:03:45,736

Audience: Bye, Ron!

63

00:03:45,736 --> 00:03:56,760

[Cheering]

64

00:03:56,760 --> 00:04:15,760

[Music]
