

1
00:00:01,930 --> 00:00:06,690
All right we're here with
[inaudible] Commander Sasha Samokutyaev.

2
00:00:06,690 --> 00:00:11,190
My commander on he [inaudible], the guy
who brought me here, the guy who is going

3
00:00:11,190 --> 00:00:14,270
to bring me home safely and
bring Andre home safely,

4
00:00:14,270 --> 00:00:18,590
and I'm going to ask Sasha
some questions in Russian

5
00:00:18,590 --> 00:00:22,750
and you might hear a voice
translating in the background.

6
00:00:22,750 --> 00:00:28,010
That is our trusted translator, Sergei Volkov.

7
00:00:28,010 --> 00:00:28,980
He's hiding.

8
00:00:28,980 --> 00:00:38,510
[laughter] You can't see him; he's off
camera, but so, Sasha [speaking Russian].

9
00:00:38,510 --> 00:04:13,000
[Speaking Russian].

10
00:04:13,000 --> 00:04:17,000
Maybe I should say what I
asked Sasha is, you know, what does he think

11
00:04:17,000 --> 00:04:21,000
about how we can use this view

of the earth to inspire people

12

00:04:21,000 --> 00:04:24,000

to make a difference on the planet.

13

00:04:24,000 --> 00:08:15,000

[Speaking Russian]

14

00:08:15,000 --> 00:08:18,000

Let me tell you about this
guy, this guy is awesome.

15

00:08:18,000 --> 00:08:22,000

When we flew into space for the first time,
it was Sasha's first time but my second time

16

00:08:22,000 --> 00:08:26,000

so I had been there before and
this guy within seconds it was

17

00:08:26,000 --> 00:08:29,000

like he was there for years and years and years.

18

00:08:29,000 --> 00:08:32,000

So he's a great experienced [speaking Russian].

19

00:08:32,000 --> 00:08:37,000

[laughter]

Your space teacher.

20

00:08:37,000 --> 00:08:40,000

[laughter]

21

00:08:40,000 --> 00:08:42,000

So we'll say goodbye to
all the people watching

22

00:08:42,000 --> 00:08:44,000

and thanks, Sasha, that was a great answer.
