

1  
00:00:02,526 --> 00:00:07,946  
>> Now I'm here with Expedition 28 International  
Space Station Commander Andrey Borisenko

2  
00:00:08,756 --> 00:00:10,516  
in the Cupola Corner here.

3  
00:00:10,516 --> 00:00:11,016  
So--

4  
00:00:11,016 --> 00:00:11,996  
[ Foreign Language ]

5  
00:00:11,996 --> 00:00:20,536  
>> So, I'm gonna ask Andrey some  
questions just like I asked Sasha.

6  
00:00:21,036 --> 00:00:25,536  
We've got our mystery translator,  
Sergei Volkov, hiding offstage.

7  
00:00:26,276 --> 00:00:30,696  
He'll translate those but we'll just start out.

8  
00:00:32,516 --> 00:01:04,846  
[ Foreign Language ]

9  
00:01:05,346 --> 00:01:12,306  
>> Okay, thank you all for the question.

10  
00:01:12,306 --> 00:01:12,546  
[ Foreign Language ]

11  
00:01:12,546 --> 00:01:17,376  
>> When I look at the Earth  
through the [inaudible]--

12  
00:01:17,376 --> 00:01:17,443

[ Foreign Language ]

13

00:01:17,443 --> 00:01:22,256

>> I feel happy and that I'm really lucky.

14

00:01:24,516 --> 00:01:34,436

[ Foreign Language ]

15

00:01:34,936 --> 00:01:40,176

>> I feel lucky because the fate allowed me to look at our beautiful planet.

16

00:01:41,516 --> 00:01:51,116

[ Foreign Language ]

17

00:01:51,616 --> 00:01:58,686

>> Look at our Earth from this altitude and see how beautiful it is, how clean it is.

18

00:02:00,516 --> 00:02:04,776

[ Foreign Language ]

19

00:02:05,276 --> 00:02:10,386

>> Then I feel proud for our civilization.

20

00:02:10,386 --> 00:02:10,816

[ Foreign Language ]

21

00:02:10,816 --> 00:02:12,406

>> Engineers and workers--

22

00:02:12,406 --> 00:02:13,126

[ Foreign Language ]

23

00:02:13,126 --> 00:02:21,996

>> -- who were able to build such a complicated structure.

24

00:02:21,996 --> 00:02:22,476  
[ Foreign Language ]

25

00:02:22,476 --> 00:02:28,856  
>> That allows us to live  
in this fantastic world.

26

00:02:30,516 --> 00:02:49,596  
[ Foreign Language ]

27

00:02:50,096 --> 00:02:51,396  
>> I think it's very easy.

28

00:02:51,396 --> 00:02:52,216  
[ Foreign Language ]

29

00:02:52,216 --> 00:02:59,976  
>> But this particular moment is very special.

30

00:03:00,516 --> 00:03:04,966  
[ Foreign Language ]

31

00:03:05,466 --> 00:03:11,586  
>> And more people can observe  
our planet from the orbit.

32

00:03:12,516 --> 00:03:20,646  
[ Foreign Language ]

33

00:03:21,146 --> 00:03:29,306  
>> More people will understand--  
understand the--

34

00:03:30,006 --> 00:03:37,356  
how beautiful the planet  
is that we need to save.

35

00:03:37,356 --> 00:03:40,676  
>> So-- and I'll just say it in

English that what I ask for is how--

36

00:03:40,676 --> 00:03:46,816

you know, how can we use this view to  
inspire people to make a difference

37

00:03:46,816 --> 00:03:53,096

and to make life better on the planet, so--

38

00:03:53,221 --> 00:03:55,221

[ Foreign Language ]

39

00:03:55,346 --> 00:04:00,856

>> Alright, so that's it for Cupola Corner and  
Andrey and I and Sasha will be going home in--

40

00:04:01,516 --> 00:04:08,136

[ Foreign Language ]

41

00:04:08,636 --> 00:04:09,976

>> Into 9-- 9 days.

42

00:04:09,976 --> 00:04:13,846

>> Nine days, 9 days we're going  
back to our beautiful planet.

43

00:04:13,936 --> 00:04:14,856

So we're looking forward to that.
