

1
00:00:07,220 --> 00:00:04,910
Mike yeah cacho pasala tibia uh de la

2
00:00:09,589 --> 00:00:07,230
bouche Noah commando Nia never never

3
00:00:12,350 --> 00:00:09,599
make as much Costanza yeah we install

4
00:00:14,180 --> 00:00:12,360
warming Damien Chief Justice's pitch now

5
00:00:21,910 --> 00:00:14,190
is I see my selection with parameters

6
00:00:28,670 --> 00:00:25,279
Thank You Andre you've been an excellent

7
00:00:30,589 --> 00:00:28,680
commander during a challenging time and

8
00:00:33,620 --> 00:00:30,599
a historic time for the space station

9
00:00:35,870 --> 00:00:33,630
program your crew has been excellent you

10
00:00:38,389 --> 00:00:35,880
have been good teachers and mentors for

11
00:00:41,630 --> 00:00:38,399
us as we have learned from you you have

12
00:00:44,119 --> 00:00:41,640
seen two shuttles and the with that very

13
00:00:46,400 --> 00:00:44,129

much activity you've been the space

14

00:00:49,040 --> 00:00:46,410

station commander as the last shuttle

15

00:00:53,170 --> 00:00:49,050

mission completed its job and return to

16

00:00:56,029 --> 00:00:53,180

home many challenges many successes and

17

00:00:58,459 --> 00:00:56,039

it's been been great flying with you

18

00:01:01,670 --> 00:00:58,469

it's been great working with you I am

19

00:01:23,870 --> 00:01:01,680

ready to accept command thank you thank

20

00:01:27,140 --> 00:01:23,880

you Michael congratulation and this best

21

00:01:30,469 --> 00:01:27,150

wishes to say a few words this petition

22

00:01:32,749 --> 00:01:30,479

program was started really about 29

23

00:01:35,179 --> 00:01:32,759

years ago it started as a dream and the

24

00:01:36,859 --> 00:01:35,189

big first the first beginnings of a

25

00:01:38,870 --> 00:01:36,869

design came together we went through a

26
00:01:40,340 --> 00:01:38,880
lot of changes through those years we

27
00:01:41,870 --> 00:01:40,350
brought in more and more international

28
00:01:43,940 --> 00:01:41,880
partners until you see the incredible

29
00:01:46,639 --> 00:01:43,950
partnership that we have today with 15

30
00:01:49,370 --> 00:01:46,649
countries around the globe keeping

31
00:01:51,770 --> 00:01:49,380
people in space for you know ten and a

32
00:01:54,889 --> 00:01:51,780
half years and counting it's to me it's

33
00:01:57,590 --> 00:01:54,899
you know to be part of this is part of

34
00:02:00,289 --> 00:01:57,600
the design teams and to be you know help

35
00:02:02,780 --> 00:02:00,299
construct it and now living on the space

36
00:02:04,730 --> 00:02:02,790
station and to take command of the space

37
00:02:07,670 --> 00:02:04,740
station is the 29th commander of the

38
00:02:09,889 --> 00:02:07,680

International Space Station is a very

39

00:02:12,140 --> 00:02:09,899

humbling experience for me it's a great

40

00:02:13,670 --> 00:02:12,150

opportunity and I just like to pay

41

00:02:16,130 --> 00:02:13,680

tribute to the center

42

00:02:18,589 --> 00:02:16,140

national cooperation that has been so

43

00:02:21,110 --> 00:02:18,599

strong and has helped carry us through

44

00:02:23,149 --> 00:02:21,120

the program as through the different

45

00:02:24,619 --> 00:02:23,159

phases that we've been through and we've

46

00:02:27,020 --> 00:02:24,629

had challenges along the way we're

47

00:02:29,089 --> 00:02:27,030

facing some challenges right now that we

48

00:02:31,459 --> 00:02:29,099

will see our way through to a great

49

00:02:34,069 --> 00:02:31,469

success and we look forward to doing our

50

00:02:36,619 --> 00:02:34,079

duty to carry on the responsibilities

51
00:02:38,270 --> 00:02:36,629
keep the space station running and do

52
00:02:40,580 --> 00:02:38,280
our best to continue to execute the

53
00:02:45,410 --> 00:02:40,590
mission that's given to us thank you

54
00:02:49,159 --> 00:02:45,420
very much congratulations commander mike

55
00:02:53,000 --> 00:02:49,169
fossom and crewmates itachi Furukawa and

56
00:03:02,750 --> 00:02:53,010
Sergei Volkov safe journeys to Andre
