

1  
00:00:00,006 --> 00:00:12,416

[Music]

2  
00:00:12,416 --> 00:00:14,036

[Expedition 29 Commander Mike Fossum:]

We understand that Destination:

3  
00:00:14,036 --> 00:00:18,326

Station is at the Wings Over [the] Rockies  
museum in Denver this month and wanted

4  
00:00:18,326 --> 00:00:21,796

to send our best wishes to everyone  
in the great state of Colorado.

5  
00:00:22,756 --> 00:00:28,636

Now, Denver may be the Mile High City, but  
we're flying 240 miles above the Earth and have

6  
00:00:28,636 --> 00:00:32,806

to break the news to you that we have an  
even better view of our planet than the folks

7  
00:00:32,806 --> 00:00:36,336

who complete the famous hike to  
the top of the nearby Long's Peak.

8  
00:00:36,336 --> 00:00:40,576

[Flight Engineer Satoshi Furukawa:]

But the space station is much more

9  
00:00:40,576 --> 00:00:44,196

than just a great place from  
which to view the Earth.

10  
00:00:44,196 --> 00:00:51,136

Along with our Canadian, European and Russian  
colleagues, we are conducting a broad spectrum

11

00:00:51,286 --> 00:00:53,176  
of important scientific research.

12  
00:00:55,606 --> 00:00:59,936  
[Fossum:] We're here 24-7, and there's room  
for a lot more research on the station now

13  
00:01:00,076 --> 00:01:02,346  
that it's a full U.S. National Laboratory.

14  
00:01:02,986 --> 00:01:08,236  
We're looking for new experiments from people in  
academia, industry and government all the time.

15  
00:01:08,926 --> 00:01:12,236  
That's one reason we're here in Denver  
where research facilities abound.

16  
00:01:14,876 --> 00:01:18,636  
[Furukawa:] After ten years of people  
living and working on the station,

17  
00:01:19,276 --> 00:01:21,566  
we are starting a new decade devoted

18  
00:01:21,726 --> 00:01:25,016  
to expanding the potential  
of this research facility.

19  
00:01:27,486 --> 00:01:31,306  
[Fossum:] From all of us on the International  
Space Station to everyone in Denver
